EXTRACT *of Part of an Act of this Province, intituled, "An Act to reſtrain People from Labour on the Firſt Day of the Week."*

AND BE IT FURTHER ENACTED by the Authority aforeſaid, That all Perſons who are found drinking and tippling in Ale-Houſes, Taverns, or other publick Houſe or Place, on the Firſt Day of the Week (commonly called Sunday) or any Part thereof, ſhall, for every Offence, forfeit and Pay One Shilling and Six-pence, to any Conſtable that ſhall demand the ſame, to the Uſe of the Poor: And all Conſtables are hereby impowered, and, by Virtue of their Office, required to ſearch publick Houſes, and Places, ſuſpected to entertain ſuch Tipplers, and them, when found, quietly to diſperſe; but, in caſe of Refuſal, to bring the Perſons ſo refuſing before the next Juſtice of the Peace, who may commit ſuch Offenders to the Stocks, and bind them to their good Behaviour, as to him ſhall ſeem requiſite. And the Keepers of ſuch Ale-Houſes, Taverns, or other publick Houſe or Place, as ſhall countenance or tolerate any ſuch Practices, being convicted thereof, by the View of a ſingle Magiſtrate, his own Confeſſion, or the Proof of one or more Witneſſes, ſhall, for every Offence, forfeit and pay Ten Shillings, to be recovered for the Uſes aboveſaid.

PROVIDED ALWAYS, That nothing in this Act be conſtrued to prevent Victualling Houſes, or other publick Houſe or Place, from ſupplying the neceſſary Occaſions of Travellers, Inmates, Lodgers, or others, on the firſt Day of the Week, with Victuals and Drink, in Moderation, for Refreſhment only; of which neceſſary Occaſion for Refreſhment, as alſo Moderation, the Magiſtrate before whom Complaint is made, ſhall be judge, any Law, Uſage or Cuſtom, in this Province, to the contrary notwithſtanding.

WHEREAS I am informed, the above Act of Aſſembly hath not been complied with for ſome Time paſt, I do therefore hereby require all Perſons, within this City and Liberties, ſtrictly to obſerve and govern themſelves according to ſaid Law, as they will anſwer the contrary at their Peril. Dated the Twenty-third of Second Month, 1761.

THE Members of the Church of England in the Borough of Lancaſter, ſenſible of the Honour due to Religion and the Service of GOD, have hitherto, without any Aid from the Public, exerted their utmoſt Abilities to erect a Church in this Place; but finding themſelves unable, from the Fewneſs of their Numbers, to finiſh and compleat it, are obliged, in Imitation of many of their pious and ſenſible Fellow-Chriſtians in this and the neighbouring Provinces, to have Recourſe to a ſmall Lottery, to enable them to do it, or to leave the Building, begun (they humbly hope) with a good Deſign, unfiniſhed. As the only Motives that induced them to enter upon a Method of this Kind, are to advance the Credit and Intereſt of Religion, and to leave ſome Evidences to Poſterity of their Attention to theſe great Duties; it is humbly hoped that a Deſign of this Sort will meet with Encouragement and Countenance; and that thoſe who are the Friends of Virtue and Chriſtianity in this remote Part of the World, will chearfully become Adventurers in this Lottery; and with the more Freedom, when they conſider that the Scheme has been calculated ſo much to their Advantage, as not to leave two Blanks to a Prize. The Money intended to be raiſed, ariſes from a ſmall Deduction of Fifteen per Cent. from the Prizes, as the Fortunate can beſt afford it, and the Lottery is thereby greatly enriched. The low Price of the Tickets (being but Three Dollars each) and the large Number of middling Prizes will, we hope, alſo recommend it. The Drawing will begin on the firſt of May next, or ſooner, if ſooner full, under the Inſpection of the Managers, and as many of the Adventurers as ſhall be pleaſed to attend. The Prizes will be paid by the Signers of the reſpective Tickets, after the Deduction abovementioned is made, as ſoon as the Drawing is finiſhed; and thoſe not demanded in ſix Months, will be deemed as piouſly given to the Church. The following Gentlemen are appointed Managers, viz. Adam Simon Kuhn, Eſq; Iſaac Richardſon, Eſq; Mr. George Roſs, Mr. Matthias Slough, Mr. James Bickham, Mr. Benjamin Price, Mr. Stephen Atkinſon, and Mr. William Atlee, who are to give Bond, and be upon Oath, to diſcharge with Integrity the Truſt in them repoſed. A Liſt of the Prizes will be publiſhed in the Pennſylvania Gazette, and Journal, as ſoon as the Drawing is finiſhed.

Tickets are now ſelling by the Managers, at their reſpective Houſes, and by William Bradford, and David Hall, in Philadelphia.

THOMAS BURKE,

At his Store, in Water-ſtreet, a few Doors above Walnut-ſtreet, where Mr. George Clymer lately lived, has imported in the laſt Veſſels from London, Liverpool and Briſtol,

A GREAT Variety of European and Eaſt-India Goods, ſuitable for the Seaſon, which he will ſell on the loweſt Terms.

ALL Perſons who have any Demands againſt WILLIAM DUNLAP, are deſired to bring in their Accounts, that they may be ſettled and paid; and thoſe who are indebted for BOOKS bought at his AUCTION, or otherwiſe, are requeſted to pay.

SCHEME

Of a LOTTERY for raiſing One Thouſand One Hundred and Twenty-five Pounds, One Shilling, and One Penny Halfpenny, for the Uſe of a PUBLIC SCHOOL lately inſtituted at GERMANTOWN.

THE generous Mind need only be informed of the real Deſign of this Inſtitution to approve and encourage it; ſome ſhort Account therefore of it ſeems on this Occaſion neceſſary. A Number of Gentlemen obſerving, with Concern, that near 200 Children in Germantown, for want of an Opportunity of Education, had been, for ſome Years paſt, bred up in a State of Ignorance, were induced to ſet on Foot a Subſcription for erecting a School-Houſe, and eſtabliſhing therein proper Schools for the Inſtruction of Youth in the ſeveral Branches of Literature. They ſoon had the Pleaſure to find, that the Munificence of the Public exceeded their moſt ſanguine Expectations. A Lot was ſoon purchaſed, and inveſted in Truſtees, who, relying on the further Continuance of that charitable and benevolent Diſpoſition in the Public towards this Deſign, were prevailed on, with the Aſſent of the Contributors, to extend the Deſign farther than at firſt intended, which has occaſioned a Deficiency in the Sums contributed to finiſh this uſeful Undertaking. To ſupply which, ſome of the Truſtees, rather than preſs the Public for farther Contributions, have thought it better to have Recourſe to the preſent prevailing and ſucceſsful Method of raiſing Money, a LOTTERY.

Great Care has been taken in the fundamental Articles of this Inſtitution to ſecure the Rights of the Contributors, and to form the Plan on the Principles of Juſtice and Liberty. The Scheme, with a little Variation, in Reſpect to the Truſtees and Directors, is that of the Pennſylvania Hoſpital, a moſt ſucceſsful and flouriſhing Inſtitution. The Truſtees are to be annually choſen, and therefore always removable on any Miſconduct. The Children of Parents of all Denominations of Religion are to be admitted, without Diſtinction. The Plan is ſo capacious, that it will admit of the greateſt Improvement in the Languages, and the liberal Arts and Sciences.

The School-Houſe conſiſts of 80 Feet in Front, and 40 Feet in Depth, two Stories in Heighth, with ſix commodious Rooms for the Uſe of the ſeveral Schools. To which are added, as Wings, two convenient Dwelling-houſes, with a Lot of Ground to each, for the Reſidence of the Maſters and their Boarders.

The Advantages of this School, with Reſpect to Situation, muſt, if duly conſidered, contribute not a little to its Promotion and Encouragement. The Houſe is built on a fine airy Hill, a little removed from the Public or Main-ſtreet. The Air is known, from long Experience, to be pure and healthy; often recommended, by the beſt Phyſicians, to Invalids; and indeed this Place, without Exaggeration, may be juſtly termed the Montpelier of Pennſylvania. The Opportunities and Examples of Vice and Immorality, which ever prevail in large Cities, here will ſeldom preſent themſelves, to decoy the youthful Mind from its natural Inclination to Virtue. Its Retirement, for want of Objects to divert the Attention, will fix the Mind to Application and Study. Its ſmall Diſtance from the City of Philadelphia will enable the Citizen, in ſome Meaſure, to ſuperintend both the Health and Education of his Child.

Induced by theſe Motives and Advantages to proſecute this laudable Deſign, the Truſtees cannot ſuſpect the Approbation and Encouragement of the Public. For, ſurely, no Taſk can impart more ſolid Delight than to lead a Number of promiſing Youths from the rude and dark Paths of Ignorance, to the Knowledge of Virtue and true Religion. No Charity can be more noble and diſintereſted, than that of adorning the youthful Mind with the Aids of Science, of forming the Heart upon the Principles of Honour and Probity.

† SAMUEL RAINE, Goaler.

Catek, in the Gulph of Perſia, May 23. Kherin-Chan hath reduced almoſt all the Provinces of Perſia. The only Son of the unhappy Haſſad-Chan maintains his Ground in Marundarum. All Perſia is plunged in Diſtreſs.

Bagdad, on the Eaſt Side of the Tigris, July 26. Kherin-Chan ſtill keeps Poſſeſſion of the Throne of the Sophi's, and is reſtoring Things to Order, though but ſlowly. Caravans have come hither very frequently for ſome Time paſt. Haſſad-Chan remains quiet in the Province of Marundarum. In two Months there will be no Remains of the French in Aſia. Fortune ſtill continues to frown on them in ſuch a Manner, that they are on the Brink of Deſpair.

Magdebourg, Nov. 18. A Liſt of the Auſtrian Generals and Officers taken Priſoners is publiſhed here, by which there now appears in all to have been 216, together with 46 Pieces of Cannon, three Haubitzers, and one Mortar. To this Number then muſt be added 26 more Officers, which were taken upon their March towards Torgau.

Vienna, Nov. 12. We were to have ſung Te Deum the 9th, for the Victory gained the 3d over the Pruſſians near Torgau; but upon the Arrival of the ſecond Courier, the Order was countermanded.

Vienna, November 15. The Battle of Torgau has been one of the bloodieſt that has happened in the Courſe of this War. Neither the Seaſon, nor Darkneſs, could ſlacken the Fury of the Combatants. All the Regiments were engaged, and all have ſuffered. The Pruſſian Grenadiers eſpecially bear the Marks of this terrible Day.

The laſt Diſpatches from Peterſburgh, are very agreeable to the Court. The Czarina has promiſed to make her Army act ſooner than uſual next Year; and that ſhe will not in the leaſt ſwerve from the Plan that ſhall be concerted for putting an End to this cruel War.

Nuremberg, Nov. 18. From all the Letters and Advices received concerning the Battle of Torgau, we put down the Loſs, on both Sides, at between 24 and 26,000 Men.

Berlin, Nov. 15. Since the Action of the 3d, ſcarce a Day paſſes without the Arrival of ſome Hundreds of Deſerters at his Majeſty's Army.

Paris, Nov. 15. It is certain that the Supplies for the enſuing Year are provided. Nor is this to be wondered at. In ſuch a Monarchy as France, which, during the War that began in 1741, was every Year ſaid to be in the utmoſt Diſtreſs, and exhauſted of Men and Money, every Difficulty is to be ſurmounted by proper Regulations. The Scheme for raiſing the Money was delivered by M. Paris de Montmartel, and M. du Verney. It has been examined in a Council, where were preſent the King, the Dauphin, the Marſhal de Belleiſle, the Duke de Choiſeuil, the Count de St. Florentin, M. Bertin, the Intendants of the Finances, and M. Toullan, Intendant at War. It was unanimouſly approved of. M. Broglio will have 120 Millions [5,240,000l. Sterling.] for the Expence of the Campaign; 18 Millions [787,500l.] will be allotted for foreign Affairs; and 12 Millions [525,000l.] for the Navy. What relates to the Town-houſe is alſo ſettled.

Magdebourg, Nov. 29. Several Auſtrian Corps, commanded by the Generals Laudohn, Jahnus, and Nauendorff, retired on the 19th from Landſhut with ſo much Precipitation, that they left all their Proviſions and Forage behind them, which fell into our Hands. We took one Lieutenant, and 30 Men, who remained in the Town, Priſoners. Part of the Enemy's Troops retired towards Liebau, to cover the Frontiers of Bohemia, and the Remainder of them towards Saxony, to ſupply, in ſome Meaſure, the Loſs their Army ſuſtained in the late Battle, which has likewiſe been lately joined by the Body of their Troops hitherto acting with the Army of the Empire.

Col. Belling, who is now encamped in the Dutchy of Mecklenburgh, has juſt attacked a Body of 500 Swedes, 250 of whom he has made Priſoners.

Dec. 1. The Fruits the King has gained by his laſt Victory, are not confined only to his being again in Poſſeſſion of the beſt Part of Saxony, and his having drove the Enemy from many important Poſts they occupied in Sileſia, but he has, in conſequence thereof, obliged the Ruſſians to retire into Poland, there to ſeek for Winter Quarters, inſtead of thoſe they propoſed to have had between the Wartha and the Oder, as was given out in the Warſaw Gazette, and ſeveral other News Papers. The next Day after that memorable Action, Prince Eugene of Wirtemberg was detached at the Head of a conſiderable Body of Troops in Purſuit of the Ruſſians. On the 20th he arrived at Schwedt, where being informed that General Werner had already driven the Enemy from Conigſberg, Pyritz, Stargard, and other Poſts they poſſeſſed in the New Marche of Brandenbourg, he himſelf, after having been reinforced, marched towards the Lower Pomerania, to oblige ſeveral ſmall Bodies of Ruſſian Troops, which ſtill continued in the Neighbourhood of Goſlin and Belgard, to retreat, with ſo much Precipitation as not to wait till they were attacked.

Nurenberg (an Imperial free City of Franconia, and Capital of a Territory of the ſame Name, in Germany) Dec. 1. Marſhal Daun, it is thought, is not yet out of Danger. He did not quit the Command till upwards of three Hours after he was wounded. It is certain that in the Memory of Man there has not been a Carnage equal to that of the 3d of laſt Month.

Hanover, Dec. 2. Laſt Saturday our Troops took Poſſeſſion of the important Poſt of Heidemunden, upon the Werra, where the Enemy had erected ſome Works, to preſerve their Communication with the Country of Eichsfeldt, Thuringia, and Heſſe. This ſmall Town was taken Sword in Hand, and the few who were not killed in the Attack, which was one of the ſmarteſt that has happened for a long Time, were taken Priſoners. We took upon that Occaſion from the French four ſmall Pieces of Cannon, and we on our Part had 40 Officers killed and wounded. The Hanoverian Guards were thoſe among our Troops who ſuffered moſt in this Rencounter.

Dec. 5. The Face of Affairs has changed within theſe few Days upon the Werra. The French being ſenſible of the Importance of the Poſt at Heidemunden, of which our Troops became Maſters the 29th paſt, made their utmoſt Efforts to regain it, in which they have ſucceeded.

Whatever Want there may be every where of Peace, we ſtill hear of nothing but Preparations for another vigorous Campaign. At London the Supplies are all raiſed. In France they are going to eſtabliſh a new Twentieth-penny. And at Vienna they talk of making all the Corporations and Public Bodies advance their Quotas up to the End of the next Year. The City of Vienna alone, it is ſaid, will furniſh 200,668 Florins.

LONDON.

Nov. 21. Wedneſday the Right Honourable the Lords Spiritual and Temporal preſented an humble Addreſs to His Majeſty at St. James's, to which His Majeſty was pleaſed to return the following moſt gracious Anſwer.

My Lords,

"I RETURN you my hearty Thanks for this very loyal and dutiful Addreſs. Nothing can be more agreeable to me, than your unanimous Concurrence in the ſeveral weighty Matters which I laid before you. The Aſſurances you give me of your Fidelity and Affection to my Perſon and Government, and of your Zeal for the true Intereſt of your Country, and for the Support of my Allies, afford me the higheſt Satisfaction, and will have the beſt Effect both at Home and Abroad. It ſhall be my conſtant Endeavour to anſwer the Expectations which you have formed of my Reign."

Nov. 22. Yeſterday the Honourable Houſe of Commons waited on His Majeſty, at St. James's, with their Addreſs.

Nov. 24. By a Tranſport Veſſel arrived at Plymouth we are informed, that the Ship loſt off Quiberon, ſuppoſed to be an Engliſh Man of War, proved to be a French Frigate of 36 Guns.

Advice has been received this Day at the Admiralty, that Admiral Rodney had deſtroyed, off Dieppe, a Privateer of 16 Guns and 200 Men, 3 fiſhing Veſſels of 60 Tons each, and 30 ſmaller Veſſels.

Nov. 27. On the 17th of October, being the Day before His Majeſty's Ship Fame left Louiſburgh, the laſt Blaſt was given to the complete Demolition of the Fortifications of that important Fortreſs, the Whole being now reduced to the Houſes of a few Fiſhermen; ſo that one may ſoon ſay, as of ancient Troy, that Verdure grows where Louiſburgh ſtood.

According to the laſt Letters from Hamburgh, the Reſolution of his Daniſh Majeſty to make a very large Augmentation of his Forces in Holſtein, occaſioned much Speculation. It was imagined that the Anſwer of the Grand Duke in relation to Holſtein, is not ſo favourable as it was at firſt thought to be; and that the Court of Copenhagen is reſolved to ſecure the Poſſeſſion of that Dutchy, or by a Coup de Main procure an Equivalent. But which ever Part his Daniſh Majeſty takes, the Conſequences will be important.

Dec. 2. There is Advice from St. Maloes, by Way of Guernſey, of 15 Privateers being ſailed from that Port, three of which mount 26 Guns each, and ſail in Company.

Extract of a Letter from Paris, Nov. 21.

"The Iſſue of the late obſtinate Action of Torgau will only tend to protract the War. If the King of Pruſſia had been vanquiſhed (which, according to all Appearnce, would have been the Caſe, but for Marſhal Daun's Wound) the Buſineſs might have been finiſhed. The greateſt Loſs the Empreſs has ſuſtained on the Occaſion is that of this great Man. Tho' his Wound is not ſaid to be mortal, he will not be able to command during the Remainder of the Campaign. In the mean time her Majeſty, to repair the Check of that bloody Day, has ſent Orders into Hungary for raiſing a Corps of 20,000 new Troops, which will join the grand Army in Saxony before the End of March. As to the reſt, they were in no Pain for Dreſden, in the Neighbourhood of which the Auſtrian Army was aſſembled, to join that of the Empire.

"We have Advice from India of a terrible Hurricane at the Iſle of France, on the 27th of January, which overthrew moſt of the Houſes in the Place. Two of the beſt Ships of M. d'Ache's Squadron were entirely loſt, and the reſt ſo much damaged, that there was no Likelihood of his going to the Relief of Pondicherry."

The Court of France went into Mourning the 15th ult. for three Weeks, on Account of the Death of his late Majeſty King George the Second.

Dec. 8. The following is the Purport of the Billet which the Empreſs Queen received the 6th of November at Noon, from Marſhal Daun.

"Moſt gracious Sovereign.

"By the Aſſiſtance of the Almighty, the juſt Arms of your Majeſty have once more gained a complete Victory over the King of Pruſſia near Zinna; the Enemy are defeated, &c.

Nov. 3, 1760. DAUN."

What was reported of Advantages gained over the Governor of the Portugueſe Settlement of Goa, was one of the Lies forged by the Jeſuits, to diſcredit the preſent Adminiſtration in Portugal.

Dec. 11. Amongſt many new and extraordinary Projects in France for recruiting their Army, one is the obliging the Convents, of which there are ſaid to be Fifteen Thouſand, to furniſh one, two, or three Men, according to their reſpective Revenues; which are to be raiſed, and maintained too, till ſuch Time as they join their reſpective Corps, at the Expence of theſe Communities: But it is foreſeen, that this Propoſal will meet with a violent Oppoſition from the whole Body of the Clergy, and all who are attached to them.

It is ſaid, that the Eſtabliſhment of the Regiments in America is to be reduced from 1000, or 900, to 700 Men; which will ſave a conſiderable Sum to the Public, without depriving it perhaps of the Service of any effective Men, as it hath been found very difficult to recruit the Regiments in that Country.

Three Thouſand of the Priſoners taken by the King of Pruſſia, at the Battle of Torgau, were brought to Leipſic on the 14th ult. and lodged in the Caſtle of Pleiſſenbourg.

St. Ignon's Regiment of Cavalry, taken by the Pruſſians at the Battle of Torgau (together with the General of that Name) was eſteemed one of the beſt Regiments of Horſe in the Auſtrian Service.

St. James's, Dec. 3. This Day a numerous Body of the People called Quakers waited on His Majeſty with their Addreſs; and being introduced by his Grace the Duke of Devonſhire, Lord Chamberlain of His Majeſty's Houſhold, Dr. Fothergill preſented the ſame to His Majeſty, who was pleaſed to receive it very graciouſly.

To GEORGE the Third, King of Great-Britain, and the Dominions thereunto belonging,

The humble Addreſs of His Proteſtant Subjects, the People called QUAKERS.

May it pleaſe the KING,

DEEPLY afflicted with the ſudden and ſorrowful Event, that leads our Fellow-ſubjects with Condolance to the Throne, we beg Leave to expreſs the Sympathy we feel on this afflicting Occaſion.

Juſtly ſenſible of the Favour and Protection we have enjoyed, during the late mild and happy Reign, and impreſſed with the warmeſt Sentiments of Duty and Gratitude to our deceaſed Sovereign, we pay this Tribute of unaffected Grief to the Memory of the Father and the Friend of His People.

We have abundant Reaſon to acknowledge the Goodneſs of Almighty God, for continuing to this Period a Life of ſuch Importance to the Welfare of theſe Kingdoms; a Period, when we behold a Prince, endowed with Qualities that add Luſtre to a Crown, formed by Tuition and Example to protect the Liberties of His People, aſcending the Britiſh Throne, and, in the earlieſt Acts of Power, giving the moſt ample Demonſtrations of His Royal Regard for Piety and Virtue.

Ever faithful and zealouſly affected to thy illuſtrious Houſe, tho' differing in Sentiments and Conduct from others of our Fellow-ſubjects, we embrace this Opportunity to crave thy Indulgence and Protection; and beg Leave to aſſure the King, that our Diſſent proceeds not from a contumacious Diſregard to the Laws, to Cuſtom, or Authority, but from Motives to us purely conſcientious.

The ſame religious Principle that produces this Diſſent, we truſt, through Divine Aſſiſtance, will continue to engage us, as it always hath done ſince we were a People, to exert whatever Influence we may be poſſeſſed of in promoting the Fear of God, the Honour of the King, and the Proſperity of His Subjects.

May the Almighty bleſs thy Endeavours to put a Stop to the Effuſion of Blood, and render thee the happy Inſtrument of reſtoring Peace and Tranquillity. May ſacred and unerring Wiſdom ever be thy Guide, adorn thee with every Virtue, and crown thee with every Bleſſing, that future Ages may commemorate the Happineſs of thy Reign with grateful Admiration.

Signed in London, the firſt Day of the Twelfth Month, 1760.

To which Addreſs His Majeſty was pleaſed to return the following moſt gracious Anſwer.

"THIS dutiful and loyal Addreſs is very acceptable to me, and you may depend on my Protection."

Afterwards a Deputation from them waited on her Royal Highneſs the Princeſs Dowager of Wales, at Leiceſter Houſe; where being introduced by Sir William Irby, Bart. Dr. Fothergill read the following Addreſs, to which her Royal Highneſs returned a very gracious Anſwer.

May it pleaſe the Princeſs Dowager of Wales,

WE the People called Quakers, beg Leave to teſtify our Grief for the Loſs we have ſuſtained, by the Deceaſe of our late gracious Sovereign: Duty, as well as Gratitude, for the Favour we enjoyed, during His long and happy Reign, claim our unfeigned Regard to His Memory, and to every Part of the Royal Family, our moſt grateful Attachment.

As the Afflictions that befal them, very deeply affect us; ſo we ſhare in the Bleſſings they enjoy; and we ſincerely rejoice at the happy Acceſſion of thy Son, our Sovereign, to the Throne of theſe Kingdoms.

The noble Proofs he has already given of great and illuſtrious Qualities, ſufficiently point how much we are indebted to a Mother's early Care in His Education.

It will, we truſt, be our conſtant Endeavour to manifeſt our dutiful Affection to the Princeſs, and our chearful Obedience and Fidelity to the King, by a Conduct becoming our religious Profeſſion. May the Almighty pour down his choiceſt Bleſſings on every Branch of the Royal Family. May they be regarded as the Ornaments of the preſent Age, and as Examples of Virtue in ſucceeding Generations.

LONDON.

Dec. 15. The Letters from Saxony agree, that the Pruſſians are much better received than they ever were in that Electorate, the People having felt far ſeverer Handſhips when they were driven out, than ever they experienced while they were in Poſſeſſion, at the ſame Time that there was no Care at all taken to enable them to provide for their future Subſiſtence, in which the Pruſſian Government were extremely punctual; ſo that till now the Country was never in Danger of becoming a Deſart, and which it can now only eſcape by remaining in their quiet Poſſeſſion during the Remainder of the Winter and the Spring.

Dec. 18. Twelve Regiments of French Cavalry, that had already entered the Country of Fulda, in order to take up Winter Quarters, have been ſuddenly brought back to the Landgraviate of Heſſe-Caſſel, upon the Approach of the Pruſſian Corps ſent to reinforce Prince Ferdinand's Army.

They write from Naples, that the Viceroy of Sicily had ſent an Expreſs to Court, to know how they ſhould behave in Caſe the ſix Engliſh Ships of War which were cruizing of Meſſina, ſhould want to come into that Port.

According to Advices from Nurenberg, the Head Quarters of the Army of the Empire will be fixed at Bamberg this Winter. This Army has ſuffered greatly, in its haſty March from Zwickau to Hoff, and is dwindled to 8000 Men; but in order to account honourably for this precipitate Retreat, they ſay that the Pruſſian Corps which came to attack them was 13,000 ſtrong.

Letters from Peterſburgh, of the 20th paſt, import, that all the Differences about the Dutchy of Holſtein, between the Grand Duke of Ruſſia and the King of Denmark, are in a fair Way of being compromiſed in an amicable Manner.

Dec. 19. According to private Advices from Vienna, dated December 1, Couriers frequently arrive there from Verſailles, with Diſpatches relative to the Meaſures to be taken for acting next Campaign, with all poſſible Vigour: But they alſo aſſure us, that the principal Object of thoſe Diſpatches is to determine ſeveral Articles concerning Italy. Theſe Matters were ſuppoſed to have been partly ſettled; but the Difficulties occurring therein are much harder to get over than was at firſt imagined. In the mean Time the Imperial Court ſeems very uneaſy about Means to find the Funds requiſite for carrying on the War; and ſome People poſitively affirm, that notwithſtanding the Empreſs Queen's Reſolution to get Satisfaction from the King of Pruſſia, ſhe would not be averſe to liſtening to an Accommodation, eſpecially if the Loan ſhe is actually negociating at Venice ſhould happen to fail. On the other Hand, the King of Poland, Elector of Saxony, ſtrongly ſolicits the Empreſs to take all Meaſures neceſſary for delivering his Electoral Dominions from the Yoke of Pruſſia, or elſe to lend a Hand towards Peace, ſince it now appears a very hard Taſk to cruſh the Pruſſian Monarch.

Letter from Peterſburgh, Nov. 20.

"Notwithſtanding all the brilliant Conqueſts made by the Engliſh, ſince the Commencement of the preſent War, it ſeems they think ſeriouſly of Means to make Peace. The Britiſh Miniſter has had, within theſe few Days, ſeveral Conferences on this Subject with the High Chancellor, and repreſented to him, that if her Imperial Czariſh Majeſty pleaſed, ſhe might ſuddenly put a Stop to the Effuſion of Human Blood, by employing her good Offices at this Court of Vienna towards inducing the Empreſs Queen to adjuſt Matters with the King of Pruſſia, and lend an Ear to the Overtures for a Pacification, which ſhe rejected laſt Year: That the Profit reſulting from it would be ſo much the greater, as a Renewal of former Treaties between the Courts of London and Peterſburgh would no longer meet with any Difficulty. We are aſſured, that theſe Solicitations are made only at the Inſtigation of the King of Pruſſia, who has found a Method to bring over to his Intereſt two of her Imperial Czariſh Majeſty's principal Favourites. But the Advantages this Princeſs reaps from the War are ſo conſiderable, that, as far as we can judge of the Matter, it will be very hard to make her yield to the Inſtances of the Britiſh Miniſter, unleſs ſhe finds a real and well-ſecured Benefit in ſo doing.

"The Baron de Breteuil, Ambaſſador from France, ſeems to have loſt much of his Credit and Influence at this Court; and we doubt not but he has already ſent Complaints to the King his Maſter of the cold Reception he meets with here."

Part of a private Letter from Paris, Dec. 5.

"Councils are ſtill very frequently held, and on the moſt ſerious Matters too. The Court has been ſome Time at a Loſs to determine whether the Marine ſhould be re-eſtabliſhed, or totally neglected; but at laſt a Reſolution is taken to throw away no more Money upon it, which muſt be the caſe while the Engliſh are ſo formidable at Sea, as ſuch an uſeleſs Expence will be ſufficient to maintain the War in Germany. The King is therefore reſolved to carry on vigorouſly the Land Operations, and not lend a Hand to any Accommodation, without firſt getting Satisfaction from his Enemies, and procuring for the Court of Vienna, and the King of Poland, with whom he is in Alliance, a juſt and reaſonable Indemnification. The King's good Faith, and his Friendſhip for the Dauphineſs, oblige him not to enter into Negotiations with his Enemies, were they determined to renew them, as ſome Advices inform us; at leaſt, his Majeſty has declared that he will not do it but in Concert with thoſe two Courts. However, we may obſerve by the Way, that this Reſolution is the Conſequence of the advantageous Propoſals made by the Empreſs Queen to his Majeſty. We do not expect to ſee a Stop put to the Effuſion of human Blood, whilſt the Court of Vienna continues ſo exaſperated as ſhe is againſt the King of Pruſſia: Her Imperial Majeſty is ready to ſacrifice every Thing, provided we aſſiſt her to hunt down that Monarch; and yet we apprehend his total Ruin would prove detrimental to France hereafter."

The laſt Reinforcement of 700 Men ſent againſt the Corſicans by the Genoeſe, were attacked by the Malecontents upon their landing, and all of them maſſacred.

The King of Pruſſia, deſirous of rewarding Monſ. de Dalwig, Commandant of the Cuiraſſiers of Spaen, for the amazing Intrepidity with which that Officer ſeveral Times led his Regiment to the Charge during the Battle of Torgau, has not only expreſſed his Satisfaction to him in the moſt gracious Terms, but preſented him, as well as the Commanders of each of the Squadrons of that Corps, with a Purſe of 500 Crowns.

The States General of the United Provinces, having referred the Britiſh Miniſter's Memorial, in Relation to the Packet Boat taken near Helvoetſluys; the Committee reported that it was a good Prize; and that Report being notified to M. D'Affry, he had the Complaiſance to aſſure them, that ſo much of the Money as ſhall be made appear to belong to Dutchmen ſhall be immediately reſtored.

The Public may be aſſured that the preſent grand Expedition is by no Means laid aſide, as has been reported; and that it is ſo judiciouſly and properly directed, that there is the greateſt Reaſon to believe it will make a very conſiderable Addition to the many Conqueſts we have already gained during the Courſe of this War.

The Lottery for the enſuing Year is to conſiſt of 60,000 Tickets at 10 l. each; but there is not to be two Lotteries, as mentioned in ſome of the Papers.

Dec. 20. A private Letter from Saxony of the 15th Inſtant ſays, "His Pruſſian Majeſty fixed his Head Quarters the 3d at Leipſick, and the 4th in the Evening went from thence incognito, without the

being known whether his Majesty was gone, much less whether he would return thither or not. It is strongly reported, within these few Days past, that this Monarch will leave no Stone unturned to bring about an Accommodation this Winter."

They write from Stettin of the 8th Instant, that since the Russians are marched towards the Vistula, the Prussian General Prince Eugene of Wirtemberg, with his Troops, have entered the Dutchy of Mecklenburg, and have made their Winter Quarters good there, and have fixed their Head Quarters at Malchin.

Letters from Mantua November 29th say, that the Governor of the Austrian Dominions in Lombardy has received Orders to make ready as soon as possible to file off a Body of Troops into Germany; and that the Regency of Tuscany has likewise had the same Order; and that it is thought the said Troops will be replaced by another Body of Troops of a Potentate in Italy, the Negociation so long since began having taken the most favourable Turn.

It is said in divers Letters from France, that they expect the Parliaments will make a strong Opposition to some of the Schemes adopted by the Court for raising the Supplies for the ensuing Year; and even tell us, that a first President is going to resign, in order to spare himself the Trouble and Vexation which he foresees those Schemes, and some new Bickerings with the Clergy, must necessarily give him, if he continues in Place.

The chief Design of the Remonstrances which the Parliament of Paris have resolved to make next Month, concerning the exiled Members of the Parliament of Besancon, is, "To explain to the King the Principles of the French Monarchy, which do not allow any Subject to be deprived of Liberty, except in the Cases foreseen by the Laws, and by observing the Forms which they have prescribed."

The Court of France, in order to secure the King of Denmark in its Interest, hath lately made three Remittances of 120,000 Rixdollars, by Way of Hamburgh to Copenhagen, in Part of the Subsidy due.

The French have taken off the Embargo on all foreign Ships in their Ports in the British Channel.

Admiral Saunders is not expected Home; but, on the contrary, great Quantities of Stores are going to be sent to him.

Letter from Madrid, by the Way of Amsterdam, Nov. 12.

"We forgot in our last to mention to you an Edict made by his present Majesty, and which has been sent down to all Governors of Places on the Sea Coasts: It is to the following Purpose; that no Captains of Men of War, or Privateers, French or English, coming into any of his Ports and having Prizes with them, shall be admitted to dispose of the said Prizes, unless they can produce to the Governor Certificates from the late Master or Masters of such Prize or Prizes, that they were taken at such a Distance from any Part of his Coasts, as not to be entitled to Protection therefrom."

Yesterday three Women and two Men, taken up some Time since, were examined a second Time before Mr. Secretary Pitt, and Mr. Stanhope, for many Hours, and were sent back again to Mr. Carrington's. It is said to be an Affair of Consequence. They all appear very genteel, but are all kept separate.

The several Regiments of Dragoons, on the English Establishment, have each of them now a Troop of Light Horse, consisting of 124 Men.

Extract of a Letter from Amsterdam [Date not mentioned.]

"I saw a Letter a few Days ago from Batavia, which mentions, that the French, with two Ships, had taken some small Places belonging to the English, on the Coast of Sumatra; and when three more Ships of War should join them (which they daily expected) they doubted not (and with Reason) of being in Possession of Fort Marlborough, and will be able to keep it till a superior Force comes to dispossess them. Bencoolen has very few Soldiers to defend it. I am sorry for some Friends there, who may suffer. Many People here, and I believe at Batavia, are pleased with the Conquest. We expect hourly a Ship from Batavia."

Letters from Gibraltar mention, that above 700 Men had been brought to a Scheme for seizing the Garrison, and putting the Officers to Death; this was discovered by some who had engaged in it. Their Leader, one Reed, a Grenadier, who called himself the Protector, and had a most persuasive Tongue, and a great Share of seeming Piety, was, with two others, executed, and he died with a Resolution suitable to his Character. One of them confessed, that every Employment had been disposed of, and that the first Impression was to have been made near the Spanish Line. When the Letters left Gibraltar, the Court Martial was sitting on others concerned in the Plot.

Yesterday, about 3 o'Clock, two Messengers set out from St. James's; one for Portsmouth, the other for Plymouth; which causes many Conjectures.

The Adventure, Lang, a Cartel Ship, from Brest, is arrived in the Downs. She left that Port the 7th Inst. and brings Advice, that the Royal Lewis, of 120 Guns, and 6 Frigates, with several Store Ships, bound to Martinico, were on the Point of sailing, waiting only for a fair Wind.

Dec. 31. The Town of Malta was surprised the 6th ult. at the Approach of a large Ship of Turkish Construction; having a white Flag, with a Crucifix at her Mizen-top, and a Turkish Pendant embroidered with Gold, that reached to the very Sea. Boats were immediately sent off, who were informed, that it was a Ship of the Grand Signor's, commanded by his Admiral, and called the Ottoman Crown: That she sailed the 2d of last June, with 2 Frigates, 5 Galleys, and other small Vessels, from the Dardanelles; that the abovementioned Admiral had been with this Ship only to Smyrna, Scio and Trio, and at length anchored off the Island of Stanchio, where he, and his Retinue, to the Number of 30 Persons, went on Shore. The whole Ship's Complement was 700 Men, but 400 being on Shore the 19th of September, the remaining 300 were attacked and overpowered by 70 Christian Slaves, armed only with a Knife each; Part being killed, Part obliged to jump overboard, and the Rest to sue for Mercy. These Heroes, now no longer Slaves, bore away immediately for Malta, but were soon pursued by the two Frigates and a Ragusian Ship, whom, by crowding Sail, they escaped; and the 8th, this Ship, mounting 68 fine Brass Guns, but loored for 74, was brought safe into the Harbour Valatte, amidst the Acclamations of the People.

The Order of Malta, as an Encouragement to such brave Fellows, has made them the sole Proprietors of the Ship and Slaves, as well as of all the Contribution Money, which latter is said to amount to a Million and a Half of Florins, and other Effects on board.

The Grand Signor was, on this Occasion, so highly offended with the Conduct of his Admiral, that he dismissed him from the Command of the Fleet.

Not long since at Bath the Subscription Books were opened for Prayers at the Abbey, and Gaming at the Rooms.---In the Evening of the first Day, the Numbers stood on them as under, and occasioned the following Thought:

The Church and Rooms, the other Day,
Open'd their Books for Pray'r and Play;
The Priest got Twelve,---Hoyle Sixty-seven;
How great the Odds for Hell 'gainst Heav'n!

Chatham, Nov. 21. The Revenge, Nassau, and Buckingham, are almost repaired, and it is expected they will be got ready for Sea in a short Time.

The Ocean, of 90 Guns, will be launched early in the Spring.

The Victory, of 110 Guns, the London, of 90, and the Ramillies, of 74, are likewise building here, with all the Expedition possible.

Private Letters by the last [illegible]ails advise, that the Count de St. Germain, Lieutenant-General of the French Forces, hath left the Service of France, and got into that of Denmark, with the Rank of Field-Marshal, and a Salary of 10,000 Crowns a Year. He [illegible] sent back to Versailles his red Ribbon. He set out f[illegible] Aix-la-Chapelle about the 10th of last Month, and sending for his Lady from Dusseldorp to Arnheim, went thither to meet her.

BOSTON, February 16.

Since our last came to Town from Quebec, and Montreal, &c. Capt. John Malcom, of the Sloop Wilmot, and Capt. John Holmes, of the Sloop Sally.

THE Advices from His Majesty's Dominions of Canada, are such as with Pleasure we can give the Public, viz.---That all the Troops stationed in the several Parts of that Country, together with the English and French Inhabitants, are well and in high Spirits, having Supplies of almost all sorts of Provisions:---That great Harmony subsists among the Whole.---Those Inhabitants who but lately were under the Tyrannical Yoke of France, now exult in the Liberty they enjoy under the British Government: No greater Burden is laid on them than they can bear: The British Troops are quartered upon the Inhabitants in Proportion to their Circumstances; and whatever they have to dispose of, they are paid for with the strictest Honour, which attaches them greatly to their new Masters, or rather Fathers: Any who are in Want, are supplied with Necessaries suitable for them; Particularly we hear, That on considering the Circumstances of many of the poor Peasants and others, who suffered the Loss of all their Effects, and being under Arms most of the Summer could not raise Grain necessary for their Families, a Contribution was set on Foot at Quebec, and a large Sum of Money collected by the Officers of the Garrison, the English Merchants, &c. &c. to support those Poor during the Winter.

Provisions it is said are brought into Montreal and sold very cheap: Poultry being in great Plenty, is sold at a Quarter of a Dollar for a Turkey, and Dunghill Fowls 3 for a Pistareen; and Wheat at 3 Pistareens per Bushel.

NEW-YORK, February 26.

By a Gentleman, who came to Town on Thursday last from Montreal, and who has been from hence to Quebec and back again since we had the Account of the King's Death, we are told, That all the French in Canada, of any Distinction, went into Mourning for the late King: That they have had a very mild Winter in Canada; the Troops all very healthy, and have all the Necessaries of Life in Plenty.

March 2. Thursday last his Majesty's Ship the Greyhound, of 20 Guns, Captain Francis, arrived at Sandy-Hook, from Spithead, in six Weeks and three Days, and the same Night the Captain came to Town, and delivered his Dispatches to his Excellency General Amherst.---Captain Francis left Spithead the 12th of January, but came off so suddenly that he has brought no public Prints: By him we learn, that the greatest Preparations were making to forward the Grand Expedition, which, in our last, we mentioned to be laid aside: That 18 Sail of the Line were sheathed, and that 200 Sail of Transports were ordered to be sheathed also: That two Expeditions were said to be on the Carpet, viz. one in the West-Indies, and the other designed against the Southern Settlements of the French on this Continent; for which last Expedition a Number of Frigates, and some Fire-Ships, were ordered to be got ready: That the brave ADMIRAL BOSCAWEN was dead: That the King of Prussia's Victory over Count Daun was as compleat as it possibly could be: And that the greatest Preparations were making for pushing on the War with the utmost Vigour.

Friday last the Schooner Bayard, Captain Hunter, arrived here, in nine Days from Hampton, in Virginia: With him came Passengers some Officers belonging to the Boston Provincials, that sailed from Louisbourg last Fall, in the Ship Nancy; they with great Difficulty, after being many Weeks at Sea, happily got in there. Several of their Companions are coming by Land.

PHILADELPHIA, March 5.

His Majesty's Ship Lively, Capt. Maitland, has taken, and sent into Jamaica, two Prize Sloops: And the Trent, another of His Majesty's Ships, Capt. Lindsay, has also sent in a large French Frigate, called the Bien Amie, laden with 900 Hogsheads of fine Sugar, bound from Martinico to Marseilles. The Frigate fought the Man of War almost an Hour, had eight Men killed and wounded, and received great Damage in her Rigging, &c. The Trent lost one Man, had another dangerously wounded, and her Masts, Sails and Rigging, were considerably damaged.

The Britannia, Captain Jennings, and the Pembroke, Captain Watkins, both from this Port for Lisbon, are lost on the Coast of Portugal.

The William, M'Leish, from Virginia for Clyde, is taken, and carried to Bayonne.----The William and Mary, Hume, from Maryland, is also taken, and carried to Lisbon.---The Sally, Melvin, from Virginia for Leith, is lost to the Southward of New-Castle.---The Mars, M'Donald, from Virginia, is put into Beaumaris.----Captain Price, from Maryland for London, was spoke with the 18th of November, off Ushant.

We have Advice from South-Carolina, that the Mercury Transport, Captain Claxton, with 156 of Montgomery's Highlanders, for Halifax from New-York, but beat off the Coast, had got into New-Providence; and that the Scarborough Man of War was to be sent to bring them to that Province.----We have the Carolina Papers to the 14th ult. but nothing of Consequence in them.

To the KING's Most Excellent MAJESTY,

The humble ADDRESS of the Right Honourable the Lords Spiritual and Temporal in Parliament assembled, November 18, 1760.

Most Gracious SOVEREIGN,

WE Your Majesty's most dutiful and loyal Subjects, the Lords Spiritual and Temporal, in Parliament assembled, beg Leave to return Your Majesty our humble Thanks for Your most gracious Speech from the Throne.

On this first Occasion of approaching Your Royal Person, permit us to express our unfeigned Sorrow for the severe and afflicting Loss, which not only this Nation, but all Europe, has sustained, in the sudden Death of our late Excellent and most Gracious Sovereign, Your Majesty's Illustrious Grandfather. The long Experience which we had of His Royal Virtues, the Benignity of His Government, and His uniform Care of our Laws and Liberties, not interrupted in any one Instance during the Course of so many Years, demand from us the most grateful Acknowledgments; and will make His Memory as dear to us as the Height and Splendor to which he had raised the Greatness of these Kingdoms, will render it glorious to all Posterity.

Such a Loss could only be repaired by Your Majesty. And at the same Time that we condole with Your Majesty on this melancholy Event, we beg Leave to offer You our most sincere Congratulations on Your happy Accession to the Throne. As Your Majesty is the rightful and immediate Inheritor of His Crown, You are so of those Virtues with which he adorned it; and which promise a Continuation of the same Blessings to these Kingdoms. It fills our Minds with inexpressible Joy, to see the pleasing Hopes we had conceived from Your many princely and amiable Endowments, and the early Demonstrations of Your Affection to this Country, so fully verified in Your first Declarations to Your Parliament.

We are penetrated with the condescending and endearing Manner in which Your Majesty has expressed Your Satisfaction in having received Your Birth and Education amongst us. What a Lustre doth it cast on the Name BRITON, when You, SIR, are pleased to esteem it amongst Your Glories!

The several paternal Assurances which Your Majesty has vouchsafed to give us, speak Your Resolution to be the common Father of Your People. No stronger Proof can be given of it, than by adopting this undeniable Maxim, That their Love is the best Security of Your Throne. From this Principle will naturally flow the strictest Adherence to our excellent Constitution in Church and State, and the Maintenance of that surest Cement of the Protestant Interest in these Kingdoms, the Toleration: And we cannot but applaud Your Majesty's Wisdom and Piety in making the Encouragement of true Religion and Virtue one of the great Foundations of Your Government.

We adore the Goodness of Providence in the signal Successes with which we have been blessed this last Summer. The Reduction of the extensive Province of Canada, with the City of Montreal, is an Event of the highest Importance in every View; and it is no small Addition to the Glory resulting from it, to have shewn, that while the British Arms carry Conquest, they carry Protection.

We look upon the great Advantages gained in the East-Indies, as highly beneficial to the Trade of these Kingdoms. And we have the justest Sense of the happy Consequences derived to the Operations of Great-Britain in particular, as well as to the common Cause in general, from the wise Conduct of Prince Ferdinand of Brunswick. After what the Enemy had before experienced from his Abilities, we are not surprised that they should not come to a decisive Engagement.

The Magnanimity and Perseverance of the King of Prussia, will not only be the Admiration of the present Age, but of Posterity; and the noble Stand made, and the Victories obtained by that Prince, must be the strongest Motives to the Powers engaged against him, to concur in the proper Measures to restore the Tranquility of Europe.

The judicious Sentiments which Your Majesty has declared to us, concerning Your Royal Navy, and the Commerce of Your Subjects, are truly worthy of a British Monarch, resolved to improve our natural Strength, and most valuable Resources. The weakening of the French Force by Sea, to so great a Degree, and the low State to which their Trade is reduced, we esteem amongst the most solid Benefits accruing to this Nation from the expensive Efforts made this War.

Your Majesty's Regard for Public Merit shines forth in the general Notice, which You are pleased to take of the Valour and Intrepidity of Your Officers and Forces by Sea and Land. They are equally conducive to the Safety and Glory of our Country; and Your gracious Acceptance of the Service of the Militia, as being useful in the present arduous Conjuncture, will be a great Encouragement to their Zeal.

At the same Time that we thankfully acknowledge Your Majesty's tender Consideration for Your People, in Your Wishes to have found Your Kingdoms in full Peace, we cannot but admire Your Wisdom in the comprehensive Sense You have expressed of the Causes and Necessity of the present War. We are convinced that Your Majesty's humane Disposition, makes You lament the Calamities of it; whilst Your Greatness of Mind has determined You to pursue it with Vigour, in order to a safe and honourable Peace, so desirable, not only to Your own Subjects, but to all Europe. Animated by that Duty which we owe Your Majesty, and by our Zeal for the Honour and Interest of these Kingdoms, we give Your Majesty the strongest Assurances, that we will chearfully support You in prosecuting the War; assist the King of Prussia, and the Rest of Your Allies; and heartily concur in all such Measures, as shall be necessary for the Defence of Your Majesty and Your Dominions, and for the other national and important Ends which You have so fully laid before us.

The Anxiety, which Your Majesty has so early declared, for the uncommon Burdens of Your People, demands our sincerest Thanks.

Your tender Concern will be an Inducement to bear them the more chearfully, and a Pledge to Your faithful Subjects, that they shall be relieved from them as soon as the publick Security will, in sound Policy, admit.

These many and eminent Proofs of Your Majesty's Goodness, and of Your fixed Attention to our Happiness, call upon us for the warmest Returns of Duty, Gratitude and Affection, to Your Sacred Person and Government. Our Loyalty and Fidelity are inviolable. Our Resolution to maintain Your undoubted Title to the Imperial Crown, and the Protestant Succession in Your illustrious House, at the Hazard of our Lives and Fortunes, is never to be shaken. Happy shall we be in every Instance, whereby we may be able to contribute to the Glory, Prosperity and Ease of Your Reign. Your Majesty's Prudence, and the Benevolence of Your Royal Heart, have pointed out to us the most agreeable Means of promoting these Ends, by so strongly inculcating the Continuance of that Union and good Harmony, which subsist amongst Your People. In doing this, Your Majesty has set an inviting and powerful Example to all Your Subjects, which we are determined to follow, by performing every Thing on our Part, to strengthen and improve this happy Situation.

[For the KING's Answer to the above Address, see our last.]

To the KING's Most Excellent MAJESTY,

The humble ADDRESS of the House of Commons to the KING.

Most Gracious SOVEREIGN,

WE Your Majesty's most dutiful and loyal Subjects, the Commons of Great-Britain, in Parliament assembled, approach Your Royal Presence, to express the deepest Sense of the great and severe Loss, which Your Majesty, and these Kingdoms, have sustained by the Death of Your Majesty's Royal Grandfather, our late Most Excellent Sovereign; the Memory of whose just and prosperous Reign will be held in Reverence by latest Posterity.

We beg Leave to congratulate Your Majesty on Your happy Accession to the Throne, the only Consideration that can alleviate our grief for such a Loss. The Knowledge of Your Majesty's Royal Virtues, Wisdom, and Firmness, opens to Your faithful Subjects, the fairest Prospect for their future Happiness at Home, and for the Continuance of that Weight and Influence of Your Majesty's Crown Abroad, so essentially necessary in this arduous and critical Conjuncture, for the Preservation of that System, upon which the Liberties of Europe depend.

We return Your Majesty our humble Thanks for Your most Gracious Speech from the Throne; and acknowledge, with the liveliest Sentiments of Duty, Gratitude, and Exultation of Mind, those most affecting and animating Words of our most Gracious Sovereign, That, Born and Educated in this Country, He Glories in the Name of BRITON. And we offer to Your Majesty the full Tribute of our Hearts, for the warm Expressions of Your truly Royal and tender Affection towards Your People. We venerate, and confide in, those sacred Assurances of Your Majesty's firm and invariable Resolution, to adhere to, and strengthen, this excellent Constitution in Church and State; to maintain the Tolleration inviolable; and to protect Your faithful Subjects in that greatest of human Blessings, the secure Enjoyment of their religious and civil Rights.

Permit us to congratulate Your Majesty on the various Successes, which, under the Protection of God, have attended the British Arms, during the last Summer; particularly in the Reduction of the City of Montreal, and the intire Province of Canada; a conquest equally important and glorious, atchieved with intrepidity, and closed with Humanity, the genuine Attributes of that British Spirit, which, under the Benign Auspices of Your Majesty, will, we trust, continue, by the Divine Assistance, to give additional Lustre to the Arms of Great-Britain.

This valuable and extensive Acquisition, joined to the signal Advantages gained in the East-Indies; the flourishing State of our Commerce; the respectable Condition of Your Majesty's Navy, by which the Remains of the Enemy's Fleet continue blocked up in their Harbours, while their Trade is almost annihilated; are Considerations which fill our Hearts with the most pleasing Hopes, that Your Majesty will be thereby enabled to prosecute this just and necessary War, to that great and desirable Object of establishing, in Conjunction with Your Allies, a safe, honourable, and lasting Peace.

We see, with the greatest Pleasure, that the Progress of the French Armies in Germany, notwithstanding their Superiority of Numbers, has been stopt, and, to the Honour of Your Majesty's Arms, their Attempts hitherto baffled, by the wise and able Conduct of his Serene Highness Prince Ferdinand of Brunswick.

When we consider the stupendous Efforts, made in every Compaign, by Your Majesty's great Ally, the King of Prussia, the Defeat of the Austrians in Silesia, and that recent and glorious Victory obtained over the Army commanded by Marshal Daun, we cannot sufficiently admire the invincible Constancy of Mind, and inexhaustible Resources of Genius, displayed by that magnanimous Monarch, to whom the most dangerous and difficult Situations have only administered fresh Occasions for Glory.

Our most dutiful Acknowledgments are due to Your Majesty for the Mention which You have so graciously made of the distinguished Valour and Intrepidity of Your Officers and Forces at Sea and Land, and for the Declaration of Your Majesty's constant Resolution to encourage and reward such Merit; and we return our most humble Thanks to Your Majesty for Your favourable Acceptance of the zealous and useful Service of the Militia, in the present arduous Conjuncture.

We assure Your Majesty, that Your faithful Commons, thoroughly sensible of this important Crisis, and desirous, with the Divine Assistance, to render Your Majesty's Reign successful and glorious in War, happy and honourable in Peace (the natural Return of a grateful People to a gracious and affectionate Sovereign) will concur in such Measures as shall be requisite for the vigorous and effectual Prosecution of the War; and that we will chearfully and speedily grant such Supplies as shall be found necessary for that Purpose, and for the Support of the King of Prussia, and the Rest of Your Majesty's Allies; firmly relying on Your Majesty's Wisdom, Goodness, and Justice, that they will be applied in such a Manner as will most effectually Answer the Ends for which they are granted, and with the utmost Oeconomy that the Nature of such great and extensive Operations will allow; and that we will make such an adequate Provision for Your Majesty's civil Government, as may be sufficient to maintain the Honour and Dignity of Your Crown, with all proper and becoming Lustre.

Your Masteſty's faithful Commons approach Your Royal Person with Hearts penetrated by the warmest and liveliest Sense of Your unbounded Tenderness and Concern for the Welfare of Your People; and rejoicing at the high Satisfaction which Your Majesty takes in the Union which so universally prevails throughout Your Kingdom: A deep Sense of that national Strength and Prosperity visibly derived from this salutary Source; and, above all, Your Majesty's Approbation of that happy Union, and the natural Disposition and Wish of Your Royal Heart to cement and promote it, are the strongest Incentives to Concord, and the surest Pledge of its Duration. The fixed Resolution, which Your Majesty has declared, to countenance and encourage the Practice of true Religion and Virtue, will, we doubt not, prove the best Means of drawing down the Favour of God upon a dutiful and united Nation; and we shall never cease devoutly to offer up our ardent Vows to the Divine Providence, that, as a Recompense for these Royal Virtues, Your Majesty may reign in the Hearts of a free and happy People, and they, excited by Your Majesty's benevolent Care to discharge Your Royal Function, and animated by Gratitude for the Enjoyment of so many Blessings, may make the due Return, by a constant Obedience to Your Laws, and by the most steady Attachment and Loyalty to Your Person and Government.

His MAJESTY's most gracious ANSWER.

GENTLEMEN,

I RETURN you my cordial Thanks for this most dutiful and affectionate Address, and for your warm Expression of Fidelity to My Person, and Attention to the Honour and Dignity of My Crown.

The unanimous Assurances, that you will make effectual and speedy Provision for the vigorous Prosecution of the War, and for the Support of My Allies, yield Me the truest Satisfaction, and will, I trust, prove the happy Means of reducing the Enemy to the Terms of a just and honourable Peace. With such Zeal and Harmony among My People, I have only to implore the Continuance of the Divine Blessings on their generous Efforts, and on My ardent Endeavours for the permanent Felicity of My loving Subjects."

NEW-YORK, March 9.

To His Excellency General GAGE, Governor of Montreal, and its Dependencies,

The Address of the Officers of the Militia, and Merchants of the City of Montreal.

"CRUEL Destiny has then cut short the glorious Days of so great and so magnanimous a Monarch! We are come to pour out our Grief into the paternal Bosom of your Excellency, the sole Tribute of Gratitude, of a People who will never cease to exalt the Mildness and Moderation of their new Masters. The General who conquered us, has rather treated us like a Father than like a Vanquisher, and has left us a precious *Pledge by Name and Deed of his Goodness to us. What Acknowledgments are we not beholden to make for so many Favours? Ha! they shall be for ever engraven in our Hearts, in indelible Characters. We entreat your Excellency to continue us the Honour of your Protection; we will endeavour to deserve it by our Zeal, and by the earnest Prayers we shall ever offer up, to the Immortal Being, for your Health and Preservation. * *Pledge*, in *French*, is *Gage*.

General GAGE's *Answer to the Address of the Inhabitants of Montreal.*

Gentlemen,

"THE Address which you presented to me on the melancholy News we have just received, deserves my most sincere Thanks. The Loss of a King, whose Actions, during His whole Reign, tended to the Welfare and Happiness of His People, cannot be felt without Grief; and Gratitude inspires us to reverence His Memory for ever. He has left the Throne to a young Prince, from whom we are well grounded to expect great Things. Educated under the Care of a Princess, who, more than Woman, is blessed with Qualities that set her above her own Sex, imbibed the Principles of Virtue, Justice, Piety, Wisdom and Moderation; what must we not hope from a Monarch thus formed!

Persuade yourselves that He will tread in the Steps of His glorious Ancestors, that the Mildness of His Government will be diffused on all His Subjects. I cannot but feel the highest Pleasure at your approving of my Conduct. You may rely on me, whenever it will be in my Power, to promote your Happiness, and if there be an Opportunity, I will omit nothing that may contribute to make you a flourishing and happy People."

PHILADELPHIA, March 12.

For the ENTERTAINMENT of the CURIOUS,

A COURSE of ELECTRICAL EXPERIMENTS, accompanied with Lectures on the Nature and Properties of LIGHTNING, shewing an infallible Method of preventing its worst and most dreadful Effects, is proposed to be exhibited at the College (provided the Air be dry enough) on Monday and Tuesday, the 23d and 24th Instant; and again on the following Wednesday and Thursday. By EBENEZER KINNERSLEY, M. A. Professor of English and Oratory in the College and Academy of Philadelphia.

No less than five Houses were struck with LIGHTNING in this City last Summer, one of which was struck twice in the same Storm; and as the Season is approaching in which such Accidents may happen again, no One knows whose House may next suffer. Those, therefore, who desire to have their Dwellings effectually secured from such terrifying Disasters, may, by these Lectures, and the Experiments that will be made with LIGHTNING, learn more of its Nature and Properties than was ever known in the World till lately. They may, at the same Time, be fully convinced, by Evidence never produced in this Case before, such Evidence as cannot possibly admit of the least Degree of Doubt, that the Method proposed for their Security, by the ingenious and worthy Dr. FRANKLIN, will, if put in Practice, be attended with certain Success; and, consequently, that Mankind, instead of having any just Objections thereto, have great Reason to bless GOD for so useful a Discovery. For,

"A prudent Man foreseeth the Evil, and hideth himself; but "the Simple pass on, and are punished." Prov. xxii. 3.

The Lectures to begin, each Day, precisely at Eleven o'Clock in the Forenoon. Tickets to be had at Mr. KINNERSLEY's House, in Market-street, and at the London Coffee-House. Price Half a Dollar for each Lecture.

Captain Arthur Burrows, from New-Providence, in Lat. 37. Long. 71. met a large Schooner, New-England built, with a red Bottom, all under Water, excepting about 5 Feet of her Bows. He took up a Barrel of her Flour, marked H, but imagines she was chiefly loaded with Lumber.

Captain John Nash, of Rhode-Island, homeward bound from Surrinam, got into Providence, after being 127 Days out; during which Time he was thrice in Soundings, but always beat off. He was supplied with Provisions by three different Vessels.

Captain Parker, for this Place, from Lisbon, likewise got in there, after being 12 Weeks at Sea, and sailed again with Captain Burrows for this Port.

The Privateer Brig Speedwell, of Providence, carried lately into that Island a French Snow, from Bourdeaux for Cape Francois, laden with Dry Goods and Wine.

Arrived at Providence from this Port, The Captains Murray, Coxe, and Farr.

From South-Carolina we learn, that considerable Magazines were forming, and every necessary Measure taken, for forwarding and facilitating the Expedition against the Cherokees: That the Creeks were still much divided among themselves as to joining in the War with them: And that Major Thomson, and Captain M'Intosh, had set out from Ninety-Six for Fort Prince-George, with 555 Rangers, escorting some Cattle and Hogs, a large Number of Waggons with Provisions for the Garrison there, and some Goods, to be laid out in redeeming the unfortunate Prisoners that are in the Hands of the Indians.

From Kingston, in Jamaica, we have Advice, that a Spanish Guarda-Costa has taken two Sloops of that Port, and several others belonging to the Island, and sent them to Carthagena.

Arrived at Jamaica. The Ship Brothers, Blair; and Sloop Boreas, --------, both from this Port.

*** NOTICE is hereby given, That Mr. DUNLAP's Collection of Books, Plate, Jewels, &c. as mentioned in his Lottery Scheme, will be in Readiness to be view'd by such as may please to call at his Auction Room next Thursday, where Attendance will be given for that Purpose, from Ten o'Clock in the Morning till Five in the Evening, for eight Days, after which they will be removed into proper Classes, as the Drawing will commence on the Day mentioned in said Scheme. A few Tickets yet remain unsold.

An ACT *for making the River* Schuylkill *navigable, and for the Preſervation of the Fiſh in the ſaid River.*

WHEREAS the River *Schuylkill* is navigable for Rafts, Boats, and other ſmall Craft, in Times of high Freſhes only, occaſioned by the Obſtruction of Rocks, and Bars of Sand and Gravel, in divers Parts of the ſame: And whereas the improving the Navigation of the ſaid River, ſo as to make it paſſable at all Times, will be very advantageous to the Poor, greatly conducive to the Promotion of Induſtry, and beneficial to the Inhabitants reſiding on or near ſaid River, by enabling them to bring the Produce of the Country to the Market of the City of *Philadelphia*, and thereby encreaſe the Trade and Commerce of the Province: And whereas divers of the Inhabitants of this Province, deſirous to promote the Welfare of the Public, have ſubſcribed large Sums of Money for the Purpoſes aforeſaid, and, by Petition to the Aſſembly, have requeſted that Commiſſioners may be appointed by Law to take, receive and collect the ſaid Subſcriptions, and ſuch others as ſhall be hereafter given or ſubſcribed, and to apply and appropriate the ſame for and towards the clearing, ſcouring and rendering the ſaid River navigable as aforeſaid; Be it therefore enacted by the Honourable JAMES HAMILTON, Eſq; Lieutenant-Governor, under the Honourable THOMAS PENN, and RICHARD PENN, Eſquires, true and abſolute Proprietaries of the Province of *Pennſylvania*, and Counties of *New-Caſtle*, *Kent*, and *Suſſex*, upon *Delaware*, by and with the Advice and Conſent of the Repreſentatives of the Freemen of ſaid Province in General Aſſembly met, and by the Authority of the ſame, That *Joſeph Fox*, *John Hughes*, *Samuel Rhoades*, *John Potts*, *William Palmer*, *David Davis*, *Mordecai Moore*, *Henry Pawling*, *James Coultas*, *Jonathan Coates*, *Joſeph Millard*, *William Bird*, *Francis Parvin*, *Benjamin Lightfoot*, and *Iſaac Levan*, or a Majority of them, ſhall be, and are hereby conſtituted and appointed Commiſſioners for clearing, ſcouring and making the ſaid River *Schuylkill* navigable, who, or a Majority of them, as aforeſaid, ſhall have full Power and Authority, by Virtue hereof, to take, collect, recover and receive, of and from any Perſon or Perſons whatſoever, any Sum or Sums of Money, which are or ſhall be hereafter given, granted or ſubſcribed, for and towards making the ſaid River *Schuylkill* navigable; and the Monies ſo collected, recovered and received by them, to lay out, appropriate and employ, for and towards making the ſaid River navigable, and paſſable for Boats, Flats, Rafts, Canoes, and other ſmall Veſſels, from the Ridge of Mountains, commonly called the *Blue Mountains*, to the River *Delaware*.

And be it further enacted by the Authority aforeſaid, That the ſaid Commiſſioners, or the major Part of them, ſhall have full Power and Authority, by themſelves, their Agents, Servants, Hirelings and Workmen, to clear, ſcour, open, enlarge, ſtraiten or deepen the ſaid River, in any Part, Place or Places thereof, which ſhall appear to them moſt convenient for opening, making anew, or improving the Channel; and alſo to cut, blow up, remove or take away, all Trees, Rocks, Beds of Gravel, Sand or Mud, Wears, Fiſhing-dams, Baſkets, Pounds, Stones, or any other Impediment or Obſtruction whatſoever, which may or can in any Manner hinder, impede or obſtruct the Navigation of the ſaid River; and to form, make, erect, and ſet up in the ſaid River, any Dams, Penns for Water-Locks, or any other Works whatſoever, which they ſhall think moſt fit and convenient to anſwer the Purpoſe aforeſaid, and to alter, repair or amend the ſame, as often as it ſhall be neceſſary or convenient; and alſo to appoint, ſet out, and make Towing-paths or Ways for towing, hauling or drawing of Boats, Veſſels, or other ſmall Craft, and Rafts of any Kind whatſoever, in, upon or through the ſaid River; which ſaid Paths ſhall be free and open to all Perſons whatſoever, having Occaſion to uſe the ſame. And from Time to Time, and at all Times hereafter, to do, execute and perform all and every other Matter and Thing in the ſaid River, neceſſary or convenient for making, maintaining, ſupporting and continuing the Navigation thereof.

And be it enacted by the Authority aforeſaid, That if any Perſon or Perſons whatſoever, from and after the Publication of this Act, ſhall erect, build, ſet up, repair or maintain, or ſhall be aiding, aſſiſting or abetting, in erecting, building, ſetting up, repairing or maintaining, any Wear, Rack, Baſket, Fiſhing-dam, Pound, or other Device or Obſtruction whatſoever, within the ſaid River, or that ſhall fix or faſten any Net or Nets acroſs the ſame, or any Part thereof, whereby the Fiſh may be obſtructed from going up the ſaid River, or that ſhall take, deſtroy, or ſpoil any Spawn, Fry or Brood of Fiſh, or any Kind of Fiſh whatſoever, in any ſuch Wear, Rack, Dam, Baſket, Pound, or other Device aforeſaid, every ſuch Perſon ſo offending, being thereof legally convicted by the Oath or Affirmation of one or more credible Witneſſes, or by his own Confeſſion, ſhall forfeit and pay the Sum of *Twenty Pounds*, lawful Money of this Government, for every ſuch Offence, or ſuffer ſix Months Impriſonment, without Bail or Main-prize; one Moiety of which Forfeiture ſhall be paid to the Informer or Proſecutor, and the other Moiety to the Overſeers of the Poor of the Townſhip where ſuch Offender ſhall reſide, for the Uſe of the Poor of the ſaid Townſhip.

And for the more ſpeedy Removal of ſuch Wears, Racks, Baſkets, Fiſhing-dams, Pounds, and other Devices and Obſtructions aforeſaid, as are already, or hereafter ſhall be made in any Part of the ſaid River, Be it enacted by the Authority aforeſaid, That the Juſtices of the County Court of Quarter Seſſions, of the ſeveral Counties within this Province, bounded on and adjoining to any Part of the ſaid River, at their next Court of Quarter Seſſions after the Publication of this Act, and as often after as there ſhall be Occaſion; and that any of the ſaid Juſtices of the Peace out of Seſſions ſhall, and they are hereby enjoined and required, to iſſue forth their Warrants to the Overſeers of the Highways of each and every Townſhip next adjacent to the Wear, Rack, Fiſhing-dam, Baſket, Pound, or other Device or Obſtruction aforeſaid, ſo erected, enjoining and requiring them, the ſaid Overſeers, reſpectively, forthwith to remove, or cauſe to be removed, every ſuch Wear, Rack, Baſket, Fiſhing-dam, Pound, or other Device or Obſtruction aforeſaid; and for that Purpoſe to ſummon the Inhabitants of their reſpective Townſhips, giving them three Days Notice, to repair to, throw down, remove and deſtroy ſuch Wear, Rack, Baſket, Fiſhing-dam, Pound, or other Device or Obſtruction aforeſaid, ſo erected, built or ſet up, and to make Return of ſuch their Proceedings to the ſaid Juſtices, at their next Court of Quarter Seſſions, by whom ſuch Warrants ſhall be reſpectively iſſued.----And if any ſuch Overſeer or Overſeers of the Highways, to whom ſuch Warrant ſhall be directed, ſhall refuſe or neglect to diſcharge and perform the Duty thereby enjoined and required of him or them, he or they ſo offending, and being thereof legally convicted by a Jury of the Country, or by his or their own Confeſſion before the ſaid Juſtices, in their ſaid Court of Quarter Seſſions, ſhall, for every ſuch Offence, forfeit and pay to the Overſeers of the Poor of the Townſhip, where ſuch Offender or Offenders ſhall reſide, the Sum of *Ten Pounds*, for the Uſe of the Poor of the ſaid Townſhip.---And if any Inhabitant ſo ſummoned ſhall refuſe or neglect to attend in Perſon, or to ſend another able Perſon in his Room, to aſſiſt in throwing down, removing and deſtroying ſuch Wear, Rack, Fiſhing dam, Baſket, Pound, or other Device or Obſtruction aforeſaid, ſo erected, built or ſet up in ſuch Manner as the ſaid Overſeer or Overſeers ſhall order and direct, he ſhall forfeit and pay the Sum of *Ten Shillings* for every ſuch Offence, to the Overſeers of the Poor of the Townſhip whoſe Inhabitants are ſo ſummoned, for the Uſe of the ſaid Poor, to be recovered and levied as Debts under *Forty Shillings* are by Law directed to be recovered and levied.

And to prevent any Delay that may happen, through the Default of any of the ſaid Juſtices, Overſeers of the Highways, or Perſons ſo ſummoned, Be it enacted by the Authority aforeſaid, That it ſhall and may be lawful to and for any Perſon or Perſons whatſoever to break, throw down, remove and deſtroy all or any ſuch Wear or Wears, Fiſhing-dams, Racks, Baſkets, Pounds, or other Device or Obſtruction whatſoever, built, erected, ſet up, or to be built, erected or ſet up, within the aforeſaid River; and that every Perſon or Perſons, who ſhall aſſault, hinder or obſtruct any Perſon in pulling down, breaking, removing or deſtroying any of the aforeſaid Devices or Obſtructions, in any Part of the River aforeſaid, and being thereof legally convicted, before any one of the ſaid Juſtices of the ſaid Courts, ſhall forfeit and pay, for every ſuch Offence, *Five Pounds*, lawful Money, as aforeſaid; one Moiety thereof to the Uſe of the Poor as aforeſaid, and the other Moiety to the Perſon or Perſons aſſaulted or obſtructed in removing or deſtroying any of the aforeſaid Devices or Obſtructions, to be recovered by a Warrant from any of the ſaid Juſtices as Debts of *Five Pounds*, or under, are recoverable by the Laws of this Province. And for the more effectual detecting and puniſhing Offenders againſt this Act, be it enacted by the Authority aforeſaid, That the Conſtable of each reſpective Townſhip which ſhall be bounded by or adjoined to any Part of the ſaid River, ſhall, and he is hereby enjoined and required, under the Penalty of *Five Pounds*, to be recovered and applied in Manner laſt aforeſaid, carefully and diligently to inſpect and view, once at leaſt in every fourteen Days, from the 1ſt Day of *Auguſt* to the 1ſt Day of *December*, in every Year, ſuch Parts of the ſaid River as ſhall be adjoining to his reſpective Townſhip; and having any Knowledge of any Offences againſt this Act, he ſhall forthwith give Information thereof to ſome Juſtice of the Peace, who ſhall immediately iſſue his Warrant to the Overſeers of the Highways aforeſaid, for the Purpoſes aforeſaid; and the ſaid Conſtable ſhall alſo preſent, on Oath or Affirmation, every ſuch Offence to the Juſtices of the Court of Quarter Seſſions of their reſpective Counties, together with the Name and Names of ſuch Offender or Offenders, that he or they may be tried according to the Directions of this Act; which Oath or Affirmation the ſaid Juſtices are hereby requir'd duly and carefully to adminiſter.

And whereas Part of the ſaid River *Schuylkill* divides the Counties of *Philadelphia* and *Cheſter*, ſome Doubts have ariſen in which of the ſaid Counties the Offences committed within the ſaid River ſhall be tried; for removing of which Doubts, Be it enacted by the Authority aforeſaid, That it ſhall and may be lawful for the Perſon or Perſons informing, proſecuting, or complaining of any of the aforeſaid Offences committed within the ſaid River, to lay the ſame to be committed within the ſaid River in the County of Philadelphia or Cheſter, and the ſame ſhall be heard, tried and determined in either of the ſaid Counties, joining on that Part of the River where the Offence is committed, at his Election.

Provided always nevertheleſs, That nothing herein contained ſhall be held, deemed, taken or conſtrued to prevent, prohibit or obſtruct the ſaid Commiſſioners from making, erecting or ſetting up any Dams, Penns for Water Locks, or other Works or Devices in the ſaid River, which they ſhall think neceſſary to aid, aſſiſt or improve the Navigation of the ſame, or by any Means whatſoever to leſſen, diminiſh or deſtroy the Powers and Authorities herein before given and inveſted in them, or to compel or oblige, authoriſe or empower, any Juſtice or Juſtices, either in or out of their Seſſions as aforeſaid, or any Overſeer or Overſeers of the Highways, or any other Perſon whatſoever, to pull down, deſtroy, or amove ſuch Parts of the ſaid Dams, and other Devices aforeſaid, as ſhall be deemed and adjudged by the ſaid Commiſſioners neceſſary and convenient to promote or improve the Navigation aforeſaid; but all and every ſuch Part of the ſaid Dams, and other Devices aforeſaid, the ſaid Overſeers, and all other Perſons whatſoever, are hereby enjoined and required to ſuffer the ſame to remain unmoved, any Thing herein before to the contrary in any wiſe notwithſtanding.

And be it enacted by the Authority aforeſaid, That the ſaid Commiſſioners ſhall, once in every Year, make Report of their Tranſactions, in clearing, ſcouring and rendering navigable the ſaid River, to the Aſſembly of this Province for the Time being, and ſhall lay before them a faithful and juſt Account of all and every Sum and Sums of Money by them had and received for the Clearing the ſaid River, and in what Manner the ſame ſhall be expended and laid out, that the ſame may be adjuſted, ſettled and allowed.

And be it enacted by the Authority aforeſaid, That an Act paſſed in the third Year of the Reign of King GEORGE the Second, intituled, *An Act to prevent the Erecting Wears, Dams,* &c. within the River *Schuylkill*, and the Act paſſed in the Eighth Year of the ſame Reign, intituled, *An Act the more effectually to prevent the Erecting of Wears, Dams,* &c. within the River *Schuylkill*, and all and every Article, Clauſe and Thing in the ſaid Acts contained, ſhall be, and is hereby declared to be repealed, null and void, to all Intents and Purpoſes whatſoever.

For the ENTERTAINMENT of the CURIOUS,

A Courſe of ELECTRICAL EXPERIMENTS, *accompanied with Lectures on the Nature and Properties of* Lightning, *ſhewing an infallible Method of preventing its worſt and moſt dreadful Effects, is propoſed to be exhibited at the College (provided the Air be dry enough) on* Monday *and* Tueſday, *the* 23*d and* 24*th Inſtant; and again on the following* Wedneſday *and* Thurſday.

By EBENEZER KINNERSLEY, M. A. *Profeſſor of* Engliſh *and* Oratory *in the College and Academy of* Philadelphia.

LECTURE I.

OF Electricity in general, with ſome Account of its Diſcovery.

2. Experiments ſhewing that the Electric Fire, commonly produced by the Friction of Glaſs, is not created by that Friction.

3. That it is not extracted out of the Subſtance of the Glaſs.

4. That it is not collected out of the circumambient Air. But,

5. That it is attracted by the excited Glaſs from the Earth, or other intermediate non-electric Matter; the whole Globe and every Thing thereon having always a certain Portion of it, called the *Natural Quantity*.

6. That our Bodies at all Times contain enough of it to ſet a Houſe on Fire.

7. That it is not the ſame with culinary Fire.

8. That it has, when in a ſtate of Reſt, no ſenſible Heat. But,

9. That, by its violent Motion in paſſing thro' other Bodies, Heat will be produced both in itſelf, and in them.

The two laſt of the above Propoſitions will be proved by a very accurate Thermometer of a new Conſtruction.

10. That it will live in Water; a River not being ſufficient to quench the ſmalleſt Spark of it.

11. That Sparks of it may be ſeen and felt riſing out of cold Water, or even a Piece of Ice, which will kindle up a burning Flame.

12. That it is an extremely ſubtile Fluid; paſſing thro' ſo denſe a Body as Metal, of any Kind, more readily than thro' any other Matter that we are acquainted with.

13. That it takes up no perceptible Time in paſſing thro' large Portions of Space.

14. That Glaſs and Sulphur electriſe differently, which will be ſhewn by ſeveral curious Experiments made with a Sulphur Globe.

15. That Bodies having only the *Natural Quantity* neither attract nor repel one another.

16. That Bodies electriſed *poſitively*, having their natural Quantities increaſed in Proportion to their Magnitude, mutually repel each other.

17. That Bodies electriſed *negatively*, having their natural Quantities equally diminiſhed, ſeem to repel each other as ſtrongly as thoſe electriſed *poſitively*.

18. That Bodies having different Quantities in Proportion to their Magnitudes, attract each other; and the greater the Difference, the greater the Attraction.

19. That different Quantities in ſeparate Bodies may be reduced to an Equality by Means of Metal in the Form of a ſlender ſharp Point, more readily, and at a greater Diſtance, than in any other Form.

20. That Bodies may be electriſed both *poſitively* and *negatively* with the ſame Glaſs and ſame Friction.

21. A Shower of electriſed Sand, which may be ſeen riſing again as faſt as it falls.

22. An artificial Spider, animated by the electric Fire, ſo as to act like a live One.

23. A Repreſentation of the Senſitive Plant.

24. A new Property diſcovered in electriſed Points, by Means

Means of which will be exhibited a Sort of electrical Horſe Race.

25. The Salute repulſed by the *Ladies Fire*, or Fire darting from a Lady's Lips or Cheeks, ſo that ſhe may *defy* any Gentleman to ſalute her.

26. Eight muſical Bells rung by an electriſed Phial of Water.

27, A Battery of eleven Guns diſcharged by Fire iſſuing out of a Perſon's Finger.

LECTURE II.

A Deſcription and Explanation of the famous *Leyden* Experiment, which is the Foundation of moſt of the principal Diſcoveries, that have been ſince made in Electricity.

2. An empty Bottle performing the *Leyden* Experiment, without having any Non-electric Matter communicating with its inner Surface.

3. The amazing Force of the Electric Fire, in paſſing thro' a Number of Bodies at the ſame Inſtant.

4. A diverting Experiment, which cannot well be underſtood but by thoſe who try it.

5. Electriſed Money, which ſcarce any Body will take when offered to them.

6. Spirits kindled by Fire darting from a Lady's Eyes (without a Metaphor.)

7. The electric Fire ſhewn to be the ſame with Lightning.

8. A bright Flaſh of real Lightning darting from a Cloud in a painted Thunder Storm.

9. The Cauſe and Effects of Lightning explained.

10. The Force of a ſmall Quantity of it to make a fair Hole thro' a Quire of Paper.

11. An Animal killed by it inſtantaneouſly.

12. Metal melted by it on Glaſs, and incorporated with the ſubſtance thereof.

13. A Wire heated by it ſo as to become red and burning Hot.

14. An Experiment ſhewing why Thunder Clouds float lower in the Air than other Clouds; and why Eminences are moſt frequently ſtruck with Lightning.

15. Why Lightning darts thro' the Air in a crooked Direction.

16. Why it is more frequent in Summer than in Winter.

17. An infallible Method will be ſhewn of preſerving Houſes, Ships, &c. from receiving any Damage by Lightning.

18. A Flaſh of Lightning made to ſtrike a ſmall Houſe, and dart towards a little Lady ſitting on a Chair, who will, notwithſtanding, be preſerved from being hurt; whilſt the Image of a Negroe ſtanding by, and ſeemingly further out of Danger, will be remarkably affected by it.

19. The Endeavouring to guard againſt Lightning in the Manner propoſed, ſhewn to be not chargeable with Preſumption, nor inconſiſtent with any of the Principles of natural or revealed Religion.

20. A curious Machine put in Motion by Lightning, and playing various Tunes on Eight muſical Bells.

21. A Battery of eleven Guns diſcharged by Lightning, after it has darted thro' ten Foot of Water.

As the Knowledge of Nature tends to enlarge the human Mind, and give us more noble, more grand and exalted Ideas of the Author of Nature, it is preſumed that this Courſe of Experiments will be, to ſome, a very agreeable Entertainment.

No leſs than five Houſes were ſtruck with *Lightning* in this City laſt Summer; one of which was ſtruck twice in the ſame Storm; and as the Seaſon is approaching in which ſuch Accidents may happen again, no one knows whoſe Houſe may next ſuffer. Thoſe therefore, who deſire to have their Dwellings effectually ſecured from ſuch terrifying Diſaſters, may, by theſe Lectures and the Experiments that will be made with *Lightning*, learn more of its Nature and Properties, than was ever known in the World till lately. They may at the ſame Time be fully convinced, by Evidence never produced in this Caſe before, ſuch Evidence as cannot poſſibly admit of the leaſt Degree of Doubt, that the Method propoſed for their Security, by the ingenious and worthy Mr. FRANKLIN, will, if put in Practice, be attended with *certain Succeſs*; and conſequently, that Mankind, inſtead of having any juſt Objections thereto, have *great Reaſon* to bleſs God for ſo *uſeful* a Diſcovery: For,

A prudent Man foreſeeth the Evil, and hideth himſelf, but the Simple paſs on, and are puniſhed. Prov. xxii, 3.

The Lectures to begin each Day, preciſely at Eleven o'Clock in the Forenoon. Tickets to be had at Mr. KINNERSLEY's Houſe, in Market-ſtreet, and at the London Coffee-Houſe. Price, Half a Dollar for each Lecture.

NEW-YORK, March 12.

Extract of a Letter from Captain Thomas Lawrence, to his Correſpondents in New-York, dated Feb. 10, 1761.

GENTLEMEN,

"I, on the 6th Inſtant, at 10 A. M. in Company with the Brig Diana, Capt. Samuel Sweet, of Rhode-Iſland, fell in with and took the Schooner Patience, Jan Quan, Maſter, bound from Cape Francois to Coracoa, laden with Sugar and Coffee, which I wiſh ſafe to your Port: I had on board when I took the abovementioned Schooner, 96 Men in all; the Brig has 14 Guns 4 Pounders, 51 Men, and Burthen about 110 Tons. I, on the 31ſt of December, in beating up to Samana, fell in with a French Frigate of 30 Guns, and after an Engagement of an Hour and a Quarter, with conſiderable Damage in our Sails and Rigging, was obliged to quit her, finding her to be every way too ſtrong for us; I arrived at Cape Samana the 12th of January, in Company with Capt. Koffler, where I have by ſucceſſive Rains been detained till the 4th Inſtant; we are all well on board, and in high Spirits; I deſign to cruiſe the North Side of this Iſland as long as my Proviſions laſt."

March 16. Yeſterday Afternoon arrived here his Majeſty's Sloop of War the Tamar, Captain Lee, in ſix Weeks and two Days from Plymouth, in Old England, with Diſpatches for the ſeveral Governors on the Continent.---As there are nothing of any great Moment in the public Prints brought by her, and we but little Time and Room to ſpare, can only give the Public the following Extracts, viz.------That the French have near 340 Privateers in and about the Channel, in which they take a great many of our Veſſels, but frequently meet with the Rubbers, inſomuch that the Brune, a French Frigate of 32 Guns, and 316 Men, has been taken and carried into Plymouth, by the Venus, Captain Harriſon, as is alſo the Veſtal Frigate, of 32 Guns, taken by the Unicorn, of 24, Captain Hunt, after very ſmart Engagements; together with ſeveral of their Privateers:----That the Groyne Packet for Falmouth, was taken and carried into Breſt, as likewiſe the Earl of Leiceſter Packet Boat, Captain Morris, with the Mail for this Place from Falmouth, which he left the 29th of December:----That the Harriot Snow Packet left England with the Mail, the 17th of January, for New-York:----And that 15 Ships of the Fleet that ſailed lately from Maryland for England, were miſſing.

That between the 18th and 24th of January, there was a very ſtrong Preſs for Seamen, on the River Thames.---That 30,000 Tons of Shipping were contracted for.---That the Brig Blakeney, Munford, from New-York, with Flax-ſeed, is arrived at Belfaſt, after having been taken by a French Privateer, and ranſomed for 250 l.---

That the Two Brothers,--------from Boſton to London, is taken and carried into Bilboa; and Capt. Jarvis, from the ſame Port, is carried into St. Maloes.

That it is ſaid, that by Favour of the thick foggy Nights, ſome of the French Men of War have got out of the River Vilaine; and that the Breſt Fleet is ſailed with Stores for Martinico, the French being very apprehenſive of our Deſign againſt that Iſland. Others conjecture that they are cruiſing, in order to intercept our outward bound Weſt-India Fleet.---That Preparations were carrying on with more Diligence than at the Beginning of the War; every Thing wearing the Face of War, rather than the Eve of Peace.--And that the Weſt-India Fleet, under Convoy of the Centaur, Nottingham, Rippon, and Port-Mahon Men of War, are ſailed.---

Saturday laſt the Ship Conſtant Matthew, Captain Parker, arrived here from Briſtol, but laſt from Milford, in about 9 Weeks: On the 18th of January, in Lat. 38:8, Long. 21, and an Half, to the Eaſtward of the Weſtern Iſlands, he fell in with a French Privateer Sloop, of 10 Guns, which he engaged for an Hour and an Half, with only four Guns, and 15 Men and Boys, and plied her ſo warmly, that ſhe ſheered off, without doing him any Manner of Damage, though ſhe gave him many Broadſides within Piſtol Shot, and attempted to board him three different Times, but was as often repulſed.

We hear that the brave Major Rogers embarks this Week for South-Carolina, in his Majeſty's Ship the Greyhound.

Extract of a Letter from a Gentleman in Jamaica, to the Owners of the Boſcawen Privateer, Captain Valantine, of this Port, dated Kingſton, Jan. 13, 1761.

"The 26th ultimo, Captain Valantine, in your Privateer Snow Boſcawen, arrived here with a French Palacco, from Port Louis, which he had taken a few Days before. Her Cargo conſiſts of 150 Hogſheads of Muſcovado Sugars, and about 34 or 35 Caſks of Indigo. His Majeſty's Ship the Lively, three or four Hours after Captain Valantine had taken Poſſeſſion of his Prize, came up with him, and claimed a Part, as being in Sight at the Time of the Capture, and ordered her down here. Captain Valantine denies that the Lively was in Sight, and immediately upon his Arrival, applied to Mr. Livingſton and myſelf: We have libelled the Polacco and Cargo on Account of Capt. Valantine, his Owners and Company. The Lively has entered a Claim, though from the Affidavits of all the Frenchmen on board the Prize in our Favour, and the ſtrongeſt Circumſtances attending the Suit: And we flatter ourſelves of having the Lively's Claim thrown out of Court, and the Polacco condemned ſolely to the Boſcawen.

Extract of a Letter from New-York, March 16.

"By the Tamar Sloop of War, Captain Lee, who left Portſmouth the 29th of January, we have Advice, that there are two Expeditions going on in England; one ſuppoſed for the Eaſt, the other the Weſt-Indies: That there was not the leaſt Appearance of Peace, nor no Talk of any Congreſs, tho' the French gave out that there was to be one: That our Miniſtry ſeemed reſolved not to make Peace till they could get a moſt honourable One: That it was ſaid the King of Pruſſia would take the Field this Month with 150,000 Troops: That it was reported two of the French Ships, that had been detained ſo long in the Vilaine, were taken: And that the Grand Expedition Fleet laſt Fall, was deſigned againſt Belleiſle, every Foot of Ground of which Place was ſtrongly ſecured by Trenches."

Captain Lee, we hear, will ſail for England in three Weeks, at fartheſt, from Monday laſt.

Yeſterday arrived here, in a Veſſel from Bermuda, Mr. Nathan Bull, who informs us, that Captain Gregory, of the Sloop Duke of Marlborough, from Rhode-Iſland for Teneriffe, was taken to Windward of Madeira, and ſent into that Iſland, and there condemned.

Vienna (in Germany) Dec. 25. The King of Poland is inceſſantly ſoliciting our Court to liſten to the Overtures of a Peace made by the King of Pruſſia. The Empreſs Queen is indeed affected by Repreſentations of his Poliſh Majeſty, and the ſad Condition of his Electoral Dominions: But we are ſenſible, that nothing but a patched Peace can be made at preſent. However, her Imperial Majeſty ſeems to be leſs incenſed againſt the King of Pruſſia than heretofore, and conſequently not averſe to juſt and honourable Conditions.

Hague, Jan. 6. By the laſt Letters from Prince Ferdinand's Head-Quarters at Uſtar, of the 29th paſt, we have an Account of an Affair that paſſed on the 23d, at Heiligenſtadt; where General Luckner, who was poſted there with a Corps of between 3 and 4000 Men, was attacked by a Body of 10,000 French, under the Command of Count Broglio. The Town being nearly inveſted on all Sides, General Luckner had no other Method of Retreat, but by the Road that leads to Witzenhauſen, where he gained an advantageous Eminence, from whence he cannonaded the French with ſuch Succeſs, that he ſecured his Retreat to Scharffenſtein, without the Loſs of a ſingle Man or Horſe killed or taken, only of a few wounded in the Affair. But an Officer, with 34 Militia-Men, who were left in the Town, were taken. The Loſs of the French, upon this Occaſion, is reckoned at about 300 Men. On the 24th, General Luckner was detached to Heiligenſtadt, and finding the French had left it, retook Poſſeſſion of it. The other Quarters of Cantonment of the Allied Army have been unmoleſted. The Marquis of Granby was in his Quarters at Corvey, on the Weſer, on the 30th paſt.

Extract of a Letter from the Head-Quarters of Prince Ferdinand, at Uſtar, Dec. 28.

"The 23d the Count de Broglio came up to attack the Town of Heiligenſtadt, where M. Luckner was with 1000 Men, moſtly Light Troops. That Town is ſurrounded with Hills, and there is no getting out of it but through long Defiles.

"M. Luckner found himſelf in the Morning incloſed on every Side, the Enemy had cut off his Communication with Nordheim, Duderſtadt and Lindau: No other Road was left him but that of Witzenhauſen. Into this he ſtruck, and thus happily extricated himſelf, loſing neither Cannon nor Baggage, nor even a Man, excepting 34 of the Militia, who ſtupidly remained in Town.

"After this he drew up his Men on an Eminence, from whence he began to cannonade the Enemy to a good Purpoſe; and having killed and wounded about 200 of them, he reſolved at Noon to march to Worbes. The Enemy purſued him as far as Scharffenſtein, but neither took nor killed any Men. It muſt be acknowledged, that never did any ſurprized Body of Troops extricate themſelves more dextrouſly.

"The Enemy, according to their own Confeſſion, and the Advices we have ſince received, were 9000 ſtrong.---- Part of the Garriſon of Gottingen was employed in this Affair, with all the Troops quartered along the Lower Werra.

"The Count de Broglio made no Stay at Heiligenſtadt, and did not afford us Leiſure to aſſemble the Troops behind the Ramm, in order to drive him from thence."

Francfort, Jan. 20. We are informed by Letters from Caſſel, that the Attempt of Count Broglio to beat up the Quarters of General Luckner, at Heiligenſtadt, in which the French loſt 400 Men, and the Allies only between 30 and 40, was become the Sneer of the whole French Army.

Prince Ferdinand's Head-Quarters at Uſtar, Jan. 17. We remain quiet in our Quarters here. We have received an Account that M. Broglio, with a large Body of Troops, and aſſiſted likewiſe in his Operations by Lieutenant-General M. de Stanville, attacked the ſecond Inſtant the Town of Duderſtadt, which is at the Extremity of his Serene Highneſs's Cantonments, on the Left. General Manſberg was poſted there, but found it neceſſary to quit the Town (which the Enemy entered) and to take Poſſeſſion of the Heights of Herbeſhagen, where he maintained himſelf till the Arrival of the Generals Kielmanſegge and Luckner to his Succour; who the next Day attacked the French in Duderſtadt, drove them from thence, and purſued them as far as Witzenhauſen. The Loſs of the Enemy upon this Occaſion, amounts, by their own Accounts, to 600 Men; 200 of them have been made Priſoners, among whom are three compleat Companies of French Grenadiers. The Loſs on our Side is 190 Men.

Altena, Jan. 9. The laſt Letters from Sweden adviſe, that the Majority of the Dyet have reſolved, that the War againſt the King of Pruſſia ought to be proſecuted next Spring with Vigour, and the Army employed in that Service augmented to 30,000 Men.

Vienna, Jan. 2. The King of Pruſſia's Propoſals to this Court have been rejected. England did alſo ſend a Plan of Pacification, which, after being examined in Council, was diſpatched to Verſailles, with Orders to our Ambaſſador to inform the French Miniſtry, that the Empreſs his Sovereign had looked upon that Plan, with great Indifference, and as no Ways acceptable; and that ſhe was determined to riſk the Fate of the approaching Campaign; but that ſhe entreated his moſt Chriſtian Majeſty to take ſuch Meaſures that this Campaign may be the laſt, as ſhe foreſaw it would be impoſſible for her to find Money enough for making another.

Prague, Jan. 5. A Pruſſian Detachment of about 300 Men, having a few Days ago, attempted to force one of our advanced Poſts, were ſo well received, that a Part of them were cut to Pieces, and the reſt made Priſoners.

Brandenbourg, Jan. 8. By Means of the great Number of Recruits lately raiſed in the King's Dominions, we expect that his Majeſty will open the next Campaign with about an Hundred and Fifty Thouſand Men, a good Part of which will be ready for Action towards the End of February, if not ſooner. Our Strength is not ſo far exhauſted as our Enemies may imagine; nay, we have Room to expect that the King's juſt Arms will gain this Year, even greater Advantages than they have reaped ſince the Beginning of this War.

Paris, Jan. 6. The Court has juſt purchaſed in Sweden and Denmark, 18 or 20 Men of War, which being joined to thoſe we have in our Ports, beſides a prodigious Number of flat-bottomed Boats, will be more than ſufficient to carry Terror and Diſmay into England and Scotland, where the Court has no Way loſt Sight of certain Plans for Deſcents, that were ſent to us about three Years ago. Nevertheleſs, in the Midſt of this flattering Proſpect, we ſee with Regret, that the Prince de Soubize is appointed to the Command on the Lower Rhine: We know his Protectreſs, and doubt not that this is the Fruit of her Intrigues.

Jan. 16. It is now ſettled, that the Army which the Marſhal de Soubize is to command next Campaign on the Lower Rhine, ſhall be compoſed of 59 Battalions and 56 Squadrons, excluſive of the Houſhold Troops.

Portſmouth, Jan. 12. An Order is come to dock and fit 18 Tranſports more for Sea: Twenty were ordered before, 8 of which are ſheathed, and the Reſt are already docked.

Plymouth, Jan. 8. The Frigate mentioned in my laſt to be in Sight with a Prize, was the Unicorn of 24 Guns, and her Prize the Veſtal Frigate, of 32 Guns, which ſhe took laſt Wedneſday, after a ſhort Engagement; Captain Hunt, of the Unicorn, and the French Captain, were both killed in the ſame Broadſide, as alſo 8 Men killed in the Unicorn, and ſundry wounded: I cannot aſcertain the Number killed and wounded on board the Veſtal: It is reported this is one of the Frigates which came out of the Vilaine, with ſeveral Ships of the Line, being Part of thoſe forced in there by Sir Edward Hawke. The Seahorſe Man of War of 20 Guns, is arrived, much ſhattered, having engaged another Frigate, who boarded her three Times; but the French Frigate ſeeing the Unicorn bear down, made the beſt of her Way: The Seahorſe is much damaged in her Rigging, ſeveral Men killed, and 20 or 30 ſent to the Hoſpital wounded.

LONDON, January 6.

On Saturday died, at his Houſe in Albemarle Street, of a Mortification in his Foot, aged near eighty, Lieutenant General John Huſke, Governor of Jerſey, and Colonel of the 23d Regiment of Foot, the Welch Fuzileers.

Extract of a Letter from France, by the Flanders Mail.

"About 39 Sail of Ships have been carried into Breſt, Morlaix, and St. Maloes, in the Space of 15 or 20 Days, by our Privateers; Capt. Deliſe, of Dunkirk, has taken three of the above, two had on board 1200 Hogſheads of Tobacco, and the other 400 Hogſheads of Sugar. Our Orders for the Purchaſe of Tobacco in England are ſtopped, on Account of the many Veſſels from Virginia and Maryland, being brought into our Ports by Privateers.

Extract of a private Letter from the Hague, Jan. 16.

It appears that the Deliberations of the States of Holland and Weſt-Friſeland, which turned only upon Redreſs of Abuſes and new Arrangements in the Republic, have been interrupted by ſeveral Demands made from England. General Yorke, at a Conference laſt Week with the Deputies of their High Mightineſſes, called for Payment of an Hundred Thouſand Pounds Sterling, which the Dutch Eaſt-India Company have engaged to lay down for the hoſtile Affair that happened in the River of Bengal. His Excellency declared, that as the Dutch were the Aggreſſors in that Affair, and fully convinced of their being in the Wrong, he intreated their High Mightineſſes to give Orders, and at the ſame Time look after the Execution thereof, that the ſaid Company ſhould forthwith perform the Engagements they had contracted on that Score.

"From the Aſſembly of the States-General, this Demand was carried to that of their Noble and Great Mightineſſes, and it is not doubted but the Money will be privately paid, in order to ſtop the Clamour of many Merchants, who are continually harping upon the Injuſtice that was done them in London, on Occaſion of the Deputation ſent thither to ſettle Differences about Trade and Navigation."

Jan. 12. We are informed that the Government has, within theſe few Days, contracted for 30,000 Ton of Shipping, which is to be got ready with all poſſible Diſpatch, for the Service of an Expedition, which will ſhortly take Place, and for Number of Ships, Forces, &c. it is ſaid will be the moſt formidable that ever went from this Iſland.

Among many other ſignal Services to his Country, he commanded in Chief in the Expedition againſt Cape-Breton, and, in Conjunction with Gen. Extract of a Letter from Montreal.

"The Caſe of the poor Canadians is really deplorable, occaſioned by the Bankruptcy of the Crown of France. Many of them who had, with great Danger and Labour, acquired Eſtates worth 20,000 l. Sterling, by the Fur Trade, or otherwiſe, can now ſcarce procure a Dinner. All their Remittances from their Mother Country, conſiſted in Bills on the French King, which are not now worth one Farthing, as no Body whatever will accept of them in Payment. It is computed there is above the Value of 3,000,000 l. Sterling of theſe uſeleſs Paper Scraps circulated through the Colony, which, as a Reward to the wretched Inhabitants, for all their Hardſhips and Fatigues, muſt now ſupply the Place of Affluence and Independence. Moſt, if not all of them, are perfectly reconciled to the Engliſh Government, as they can now with Security enjoy any little Property they have; whereas formerly Governor Vaudreuil made no Ceremony of ſeizing the Produce of their Lands, their Merchandize and Manufactures of every Kind, and, after conveying them to the King's Store-houſes, paid to the Proprietors any Price he pleaſed. If the Owners thereafter had Occaſion for any of their own Commodities, they could not procure them under twenty Times the Price they had received."

SCHEME of a LOTTERY for raiſing One Thouſand Seven Hundred and Sixty Dollars, for paving the North End of Second-ſtreet, from Saſſafras or Race-ſtreet, in the City of Philadelphia, to Samuel Noble's Houſe, on Callowhill.

THE Succeſs with which the ſeveral Lotteries lately offered to the Public have been attended, has encouraged a Number of the Inhabitants of the City of Philadelphia, to endeavour by that Means to raiſe a ſufficient Sum to pave the abovementioned Street.

To enlarge on the many Advantages that will attend this Undertaking, would be needleſs, as it is an univerſal Complaint, as well of the Inhabitants as of Travellers, that no Place in or near the City requires Amendment more,

It will therefore not admit of a Doubt, but this Scheme will be encouraged, eſpecially as it is better calculated for the Advantage of Adventurers than any other Lottery at preſent among us, there being only a Deduction of 10 per Cent. inſtead of 15 per Cent. and that to be taken out of the Sale of the Tickets, ſo that the Fortunate will receive their Prizes entire, and the Lottery be 5 per Cent. richer.

The SCHEME is thus,

Number of Prizes.		Value in Pieces of 8.		Total Value.
1	of	750	is	750
2	of	500	are	1000
3	of	250	are	750
4	of	100	are	400
5	of	75	are	375
8	of	50	are	400
25	of	40	are	1000
50	of	20	are	1000
120	of	10	are	1200
1115	of	8	are	8920
			First drawn,	20
1333 Prizes.			Laſt drawn,	25
3067 Blanks.				15840
4400 Tickets, at four Dollars each, are				17600
Ten per Cent. Deduction,				1760
				15840

By which it appears that there are but little more than two Blanks to a Prize.

The Lottery to be drawn on Monday the 18th of May next, or ſooner, if ſooner full. Henry Woodrow, Benjamin Davis, John William Hoffman, William Clampffer, and Alexander Allaire are appointed Managers, and are to give Bond and be upon Oath for the faithful Diſcharge of their Truſt. The fortunate Numbers to be publiſhed in the News-papers. Tickets are now ſelling by the Managers, at their reſpective Dwellings; alſo by William Bradford, at the London Coffee-houſe, William Dunlap, and David Hall.
